Hello,

I am writing to register my full support for removing police from schools. Police in schools do not make students safe and hampers their learning and their ability to feel safe, secure, and welcome in their own education.

SROs disproportionately target and surveil racialized students, and make gender oppressed, and even those students that do not fall into those categories feel unsafe and unwelcome in their own schools.

I would also like to register my support to funnel any money previously spent on SROs to programming and support in the communities like free meals at school, school supplies and after school activities.

REMOVE SROs FROM SCHOOLS NOW!

Many thanks,
Jennifer
