

# Special Education Placements Provided by the OCDSB

## Purpose of the Standard

To provide the Ministry and the public with details of the range of placements provided by the Board, and to inform the public that placement of a student in a regular class is the first option considered by an IPRC

## Learning For All, Kindergarten to Grade 12

*“Learning for All, K-12”* describes the educational approaches that are based on one of the most important findings of educational research since 2000 – namely, that all students learn best when instruction, resources, and the learning environment are well suited to their particular strengths, interests, needs and stage of readiness.” (2013, p.8)

The OCDSB offers a variety of placement options from least intrusive to most supportive. Regulation 181/98, Section 17 made under the Education Act states:

(1) When making a placement decision....(the Identification Placement and Review Committee)...shall, before considering the option of placement in a special education class, consider whether placement in a regular class, with appropriate special education services,

- (a) would meet the pupil’s needs; and
- (b) is consistent with parental preferences.

(2) if, after considering all of the information obtained by it or submitted to it under Section 15 that it considers relevant, the committee is satisfied that placement in a regular class would meet the pupil’s needs and is consistent with parental preferences, the committee shall decide in favour of placement in a regular class. A variety of placements is necessary to meet the needs of various student

A regular class placement is considered the placement of first option when such a placement meets the student’s needs and is consistent with parental preferences. When a student is placed in a special education program, integration continues to be maximized to the greatest degree possible, based on the individual needs of students. Students can be integrated into the regular classroom in a variety of ways. These ways include, but are not limited to, the following:

- participation in activities and subjects in areas of strength
- participation in any subjects such as physical education, art, music, and drama
- participation in school based activities
- peer helpers
- reading buddies
- differentiated/modified curricular expectations and evaluation
- accommodations (e.g., preferential seating, assistive technology)

## **Options for Student Placements**

### **Regular class with indirect support**

The student is placed in a regular class for the entire day, and the teacher receives specialized consultative services.

### **Regular class with resource assistance**

The student is placed in a regular class for most or all of the day and receives specialized instruction, individually or in a small group, within the regular classroom from a qualified special education teacher.

### **Regular class with withdrawal assistance**

The student is placed in the regular class and receives instruction outside of the classroom for less than 50 per cent of the school day, from a qualified special education teacher.

### **Special education class with partial integration**

The student is placed by the IPRC in a special education class where the student–teacher ratio conforms to *Regulation 298, section 31*, for at least 50 per cent of the school day, but is integrated with a regular class for at least one instructional period daily.

### **Special education class full time**

A student is placed by the IPRC in a special education class, where the student–teacher ratio conforms to *Regulation 298, section 31*, for the entire school day.

### **Elementary / Secondary Special Education Programs**

## **School-based support**

### **Regular classroom with Monitoring from the LRT/LST**

This support is provided by the classroom teacher. The exceptional students' program is monitored and the teacher receives consultative services from the Learning Resource Teacher (LRT) or the Learning Support Teacher (LST).

### **Regular classroom with Support from the LRT/LST**

This program is provided by the classroom teacher. This placement is designed for exceptional students who require assistance from the LST or LRT in a regular classroom or a 'withdrawal' setting.

## **Regular classroom with Specialized Support**

This program is provided by the classroom teacher. This placement is designed for exceptional students who require direct or indirect support from:

- Itinerant Teacher of the Blind/Low Vision (ITB/LV)
- Itinerant Teacher of the Deaf/Hard of Hearing (ITD/HH)
- Intermediate Language Learning Disability Team (ILLD)
- Educational Assistant (for physical/medical/safety needs)

## **System-based programs**

### **Specialized Program Classes**

The OCDSB has a range of special education programs and services focusing on providing the necessary support via the Tiered Intervention Approach, Differentiated Instruction, and Universal Design for learning. Most specialized program classes have a lower pupil-teacher ratio than regular classes. Students may be integrated into the regular class.

In order to prepare for the opportunity of returning to a regular classroom. These special education programs may also include support from Learning Support Services (LSS) personnel.

### **Application Process for Specialized Programs**

The parent(s)/guardian(s) of the student must be consulted and sign any application to a specialized program class, prior to the completion of an application. It is recommended that parent(s)/guardian(s) are familiarized with the placement before agreeing to the application.

Schools submit applications and all required documentation to a central application committee for both new applicants and for students moving from elementary to secondary school for the following specialized programs classes:

[Autism Spectrum Disorder Secondary Credit Program \(ASDSCP\)](#)

[Autism Spectrum Disorder Program \(ASDP\)](#)

[Behaviour Intervention Program \(BIP\)](#)

[Blind/Low Vision \(B/LV\)](#)

[Deaf/Hard-of-Hearing Program \(D/HH\)](#)

[Developmental Disabilities Program \(DD\)](#)

[Dual Support Program \(DSP\)](#)

[General Learning Program \(GLP\) / Storefront](#)

[Gifted Specialized Program \(Elem/Sec\) \\*](#)

[Language Learning Disability Program \(LLD\)](#)

[Learning Disability Program \(LD\)](#)

[Physical Support Program \(PSP\)](#)

[Primary Special Needs \(PSN\)](#)

\*Note: At the secondary level, gifted students wishing to attend a gifted specialized centre may apply directly to the centre designated as determined from their place of residence.

- A central referral committee consisting of learning support consultants (LSC) and LSS personnel as appropriate determines if the application meets criteria for the specialized program class. Students will be recommended for age-appropriate placement.
- The principal of the sending school is contacted regarding the offer. The principal contacts parent(s)/guardian(s) for a response within 48 hours, and then advises the central application committee of the parent's response. If applicable, parent(s)/guardian(s) then contact the receiving school as soon as possible.
- The principal of the sending school conducts an IPRC. If there are extenuating circumstances due to year-end timelines, the IPRC can be convened at the receiving school in early September. The parent/guardian will have completed a registration and requested specialized transportation forms as needed for the student.
