

Delegation

Name: Phoebe Qiao

Summary of main points for the issue/ concern:

I wish to speak out against anti-trans hate, as from I've heard some individuals are planning to show up to speak against trans rights and acceptance.

Recommendation(s) for resolution of issue:

The school board could always do more to combat systemic transphobia in schools, but my primary concern is organizing against transphobes gaining electoral power/societal legitimacy. I do not wish for trans rights to backslide in school boards like they have in the US
