

OTTAWA-CARLETON  
DISTRICT SCHOOL BOARD

# Delegation

---

**Name: Allison Cane**

**Summary of main points for the issue/ concern:**

I want to bring the board's attention to a change in OSTA's guidelines for dropping off children unattended. On the first day of school we had a 7 year old left alone at a stop for over an hour without her parent or the school being notified until me and my child passed by sheer luck. I don't plan on bringing up any identifying details of anyone involved but I do want to request the board to pass the info to parents and staff as OSTA did not inform anyone. I realize you have no control over OSTA or their guidelines but you do have the ability to inform the parents and staff at all the schools so they are aware. I had thought I submitted this already but for some reason when I originally tried to register last week it sent me to OCSB instead and I JUST noticed it now. My presentation is super quick I've got it under 3 min after practicing it all weekend. I can time it again and let you know exactly if you need me to I can also type up and send a copy of exactly what I plan to say. I've never done this before so if there is anything I'm forgetting or that I need to do please let me know asap. Super sorry about the late registration like I said I accidentally submitted a registration to the wrong school board as I was still extremely frazzled after the bus incident last week and did not register there was a letter missing.
