

Name: Beth Lawless

Brief summary of issue or topic of discussion:

Discussing the impact on the changes to boundaries on children receiving special education including my son [REDACTED] who is a childhood cancer survivor, autistic, gifted, has adhd, as well anxiety, a fine motor delay, and C-PTSD. [REDACTED] was severely and violently bullied in his previous school (Pinecrest), and we have significant concerns that the changes in boundaries will move him from a small school (Briargreen) to a much larger school (Knoxdale) for only two years before he has to move again for high school.
