

Name: Elizabeth Whitten

Brief summary of issue or topic of discussion:

I would like to discuss the viability of the EE and FI within the revised EPR within zone 11, particularly Sawmill Creek ES and Blossom Park ES, how is equity playing a part putting these children in split grad classes throughout the elementary school education setting them up for success. In addition, concerns regarding exemptions due to viability of the sending and receiving schools and one of these schools currently does not have EDP.
