Special Education Plan 2024-2025

OTTAWA-CARLETON DISTRICT SCHOOL BOARD

Introduction

Part 1 - The Board's Consultation Process

Part 2 - Special Education Programs and Services

Part 3 - The Board's Special Education Advisory Committee

Part 4 - Coordination of Services with Other Ministries or Agencies

Ottawa-Carleton
DISTRICT SCHOOL BOARD

Educating For Success — inspiring learning, developing well-being and building social responsibility

Letter to the Ministry of Education

Board and SEAC Motions

Part 1 | The Board's Consultation Process

Purpose of the Standard

To provide details of the board's consultation process to the Ministry and the public.

The OCDSB reviews and updates the Special Education Plan on an annual basis. It is our belief that consultation with a variety of stakeholders is necessary to receive the required input to improve programs and services for students as well as to update the plan as required.

The OCDSB's Special Education Advisory Committee (SEAC) formally reviews the Special Education Plan annually, and also throughout the year as the need arises in accordance with *Regulation 464/97*. SEAC members are able to share information and input from their respective associations/agencies and provide feedback. This document continues to be a work in progress as we strive to continue to improve the functionality and usability of the plan. A review schedule of each component of the special education plan was developed for the year via SEAC monthly agendas and input from SEAC was received. All of the feedback provided was reviewed and revisions to the plan were made in alignment with Ministry of Education requirements. Ongoing suggestions and feedback this year from SEAC consultations were:
- to use more readable and accessible language
- to review the IEP and IPRC information shared with parents/caregivers

Minority and Majority Reports
There were no majority or minority reports concerning the Board's approved special education plan in 2024-2025.

Opportunities for Community Input and Consultation
The OCDSB is committed to effective and meaningful consultation with various stakeholders within the Ottawa community to bring about an open and inclusive decision-making process. Consultation is a process undertaken to seek information, advice, and informed opinion for consideration prior to decision making. At its heart, consultation is about interactive two-way communication and dialogue. The process is an opportunity for the community to provide information about key issues and their implications to foster better understanding. This allows those affected by the decision to have meaningful and substantive opportunities to influence final decisions.

Throughout the year, opportunities for public input and feedback were provided through the monthly SEAC meetings and meeting minutes, the district's website, and via direct connection with Learning Support Services team members. In addition, an invitation to members of the community inviting feedback on the Special Education Plan 2024-2025.

Special Education Program and Services Internal / External Reviews

Elementary Program Review - Special Education
LSS reviewed their model for Special Education in conjunction with the Elementary Program Review. Our model was viewed from a continuum of inclusion with the belief that all students in all schools will have their achievement and wellbeing needs supported in a safe and welcoming learning environment. This has involved public consultation, a review of internal district data and external research. The proposed model was not accepted by the Trustees.

An Evaluation of the Programs and Services at Crystal Bay Centre for Special Education and Clifford Bowey Public School
This consultation and collaborative evaluation is ongoing from 2022-2023. A final report was provided in the spring of 2024. Recommendation tracking began in 2024-2025 and will continue into 2025-2026. Data collected as part of this review will continue to inform instructional practices and may serve as a reference for future policy and decision-making.

General Learning Program (GLP) Inclusion Project
LSS initiated a program review in 2022-2023 to strengthen and expand its system-level understanding of the program. The report released in spring 2024 found opportunities for integration were highly valued by students, parents and educators, resulting in increased integration of students into regular classes and the school communities. It also found elements of a student's identity may be influencing their experience with special education processes and/or support and the majority of students who enter the GLP remain in the placement. These findings reinforced LSS' commitment to continue training system leaders, administrators and educators on the effects of ableism and the benefits of inclusive education. LSS is also supporting the development of more individualized pathway planning for students and is raising awareness regarding the impacts of modifications and alternative learning expectations on student achievement and pathway opportunities while supporting educators in making grade-level provincial curriculum accessible.

Educational Assistant (EA) Allocation Audit
The final report from the Regional Internal Audit Team (RIAT) was provided in the fall of 2023. A rubric of the criteria for EA assistance was created and rolled out for use in schools in the spring of 2024. The rubric was useful during the allocation period and when reviewed in the fall of 2024 was accurate in addressing needs. The use of this rubric in the spring of 2025 provided information on the changing needs in schools. Options for automation of the EA allocation process have been undertaken and meetings have been held with a provider potentially leading to an Request for Proposal phase in 2025-2026.

New Initiatives

Inclusive Education Model
A broader focus on inclusive education continues to be explored through a variety of inclusion initiatives in our district. Inclusive models will aim to address barriers faced by students with disabilities that are inherently built into existing models. Opportunities for all students to access learning in their community schools continues to be emphasized and with this goal in mind we are engaged in a re visioning exercise for our Central LSS teams and our professionals.
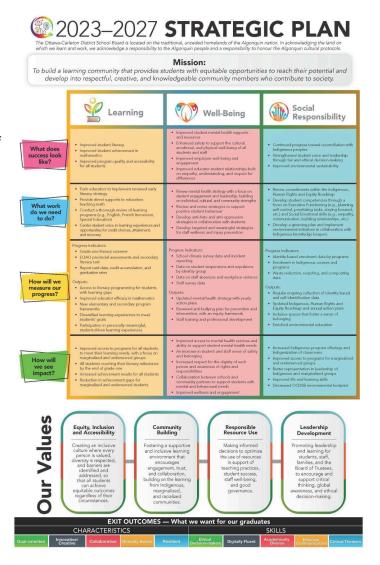

The Board's Model for Special Education

Purpose of the Standard

To provide the Ministry and the public with information on the Board's philosophy and service-delivery model for the provision of special education programs and services.

The OCDSB is committed to the principle that learning is a developmental process and children proceed through the stages of development at varying rates. The OCDSB is also committed to early identification and intervention to address learning needs. It is through this early identification and intervention process that learners remain confident about their abilities and are engaged in their learning journey.

The OCDSB Special Education Plan has been designed to comply with the *Canadian Charter of Rights and Freedoms*, the Ontario *Human Rights Code*, the *Education Act*, *Accessibility for Ontarians with Disabilities Act*, and regulations made under the Act and any other relevant legislation. The OCDSB's approach to special education and its special education delivery model are aligned with the Board's Mission Statement and Strategic Plan. Our Mission, *Educating for Success: inspiring learning, developing well-being and building social responsibility* forms the foundation of our work. Our Strategic Plan connects and supports the tiered model of intervention utilized in the OCDSB.

2023–2027 **STRATEGIC PLAN**

The OCDSB is strongly committed to human rights, equity and inclusion and has taken steps to identify and address systemic and structural barriers. These steps support student's ability to participate, excel and feel valued in the OCDSB community. The OCDSB acknowledges there is always more to learn and do. To serve every student, the OCDSB is intentional about acknowledging diverse ways of knowing, different styles of learning, and valuing, respecting and leveraging the strength of each student's individual and intersecting identities. The OCDSB works collaboratively with students, parents, educators and community partners to support each student. The goal is to discover or enhance the positive contributions each person makes in their school, community, country and the world. These goals are outlined in the OCDSB Indigenous, Equity, and Human Rights Roadmap - Eliminating Barriers to Success 2020-2023. This roadmap is being tracked OCDSB Roadmap Tracker.

TIER 3
For students who require intense support to achieve learning goals, even more precise and personalized assessment and instruction are planned, often with the help of the in-school team and/or other available resources. Monitoring of progress continues.

TIER 2
On the basis of assessment results, differentiated instruction and interventions are planned for students who are having learning challenges in a particular area, or in general. Student progress in response to these interventions is closely monitored, and instruction is adjusted as needed.

TIER 1
Assessment and instruction are planned in relation to the curriculum for all students, applying principles of UDL and DI. The teacher observes, monitors student progress, and notes which students may be experiencing difficulty.

Service Delivery Model
Our education system is based upon the principles of inclusion. All students deserve the opportunity to have equal access to opportunities and resources that will allow them to succeed as learners. Our ongoing commitment is to provide the structures and supports that individual students need to foster their growth, while encouraging inclusion and full participation. Each student is encouraged to build independence based on their strengths and needs. The goal is to help every student meet their full potential, while fostering the highest level of inclusion and independence possible. The OCDSB collaborates with parents/caregivers and district staff to be inclusive of all learners.

The Service Delivery Model of the OCDSB is based on a continuum of programs and services with placement options ranging from regular class with special education resource support to specialized program class placements and special education schools. This model is rooted in Universal Design for Learning, Culturally Relevant and Responsive Pedagogy, and the tiered approach to intervention, as outlined in the Ministry of Education document; *Learning for All* : A Guide to Effective Assessment and Instruction for All Students, *K-12* (2013).

The majority of students with special education needs are placed in a regular classroom. For most students, a classroom teacher, with the support of the school's learning support teacher (LST) or learning resource teacher (LRT) (only in elementary schools), and/or central district staff, is able to provide programming support in an inclusive environment that allows the student to meet required expectations with success. The regular classroom is always an option that parents/caregivers may consider, regardless of the student's needs. A regular classroom allows the student to be surrounded by peers, while receiving personalized programming that is outlined in the student's Individual Education Plan (IEP). IEPs are developed to provide the supports, strategies and interventions each student may need to access the curriculum. The regular class is considered the most inclusive of placements.

In some cases, a specialized program class may be considered as an option to meet the specific needs of the student. Specialized program classes are geographically distributed and

---

located in designated schools. The OCDSB values collaboration and participation of parents/caregivers and the students themselves to best understand the strengths and needs of each learner.

For the 2024-2025 school year, the OCDSB has continued to offer both in-person and virtual learning opportunities. The overview of related information can be found in *Policy/Program Memorandum No. 164*. OCDSB special education learners in the regular classroom were offered either in-person learning, or the option of attending the Ottawa-Carleton Virtual (OCV) school. Individualized support was provided to special education learners in their respective setting and based on their IEP. Specialized program classes were only offered in person in the 2024-2025 school year.

Special Education Programs
Special education placements and programs are outlined in detail in Standard 9 (refer to subsection Special Education Placements Provided by the OCDSB for detailed descriptions of Ministry Placements and OCDSB Programs).

Ministry of Education Placements offered by the Ottawa-Carleton District School Board
- Regular Class with Indirect Support
- Regular Class with Resource Assistance
- Regular Class with Withdrawal Assistance
- Special Education Class with Partial Integration
- Special Education Class Full-time

Community / Provincial Specialized Placements
- Education and Community Partnership Program (ECPP)
- Provincial or Demonstration Schools
- Hospital or Treatment Centres

Special Education Supports in the OCDSB *(Listed in no particular order)*

School-Based Supports
- Classroom Teacher
- Parents/Caregivers
- Educational Assistant (EA)
- Early Childhood Educator (ECE)
- Learning Support Teacher (LST)
- Learning Resource Teacher (LRT) (elementary only)
- Principal/Vice-Principal
- MultiLingual Staff (ESL / ELD)

System-Based Supports
- Learning Support Consultant (LSC)
- Psychologist/Psychological Associate
- Social Worker
- Speech-Language Pathologist
- Occupational Therapist
- Communicative Disorders Assistant
- Autism Spectrum Disorder Team
- BCBA (Board Certified Behaviour Analyst)
- Itinerant Teacher of Blind/Low Vision and Itinerant Teacher of Deaf/Hard of Hearing
- Itinerant Teacher for Autism/DD
- Itinerant Teacher for Learning Disabilities
- SELT (Social / Emotional Learning Teacher)
- Early Learning Team
- ITAT (Itinerant Teacher of Assistive Technology)
- Itinerant Emergency Educational Assistant
- Itinerant Educational Assistant
- System Principals
- System Manager
- Mental Health Lead
- Supervisors of Speech-Language Pathology and Occupational Therapy, Psychology, and Social Work

Provincially-Based Supports
- Community Agencies
- Education and Community Partnership Program (ECPP)
- Hospitals
- Demonstration/ Provincial Schools

The OCDSB special education policy shall be achieved through the delivery of a variety of learning supports including, but not limited to:
- a range of appropriate, timely assessments accompanied by timely tiered interventions and professional strategies
- a continuum of placement options
- equitable application of the specialized program class location model using geographically defined catchment areas and designated schools to ensure fair access to specialized programs
- appropriate student/teacher ratio as governed by the Education Act
- Individual Education Plans (IEPs) subject to regular review and outcome based evaluation
- a clearly communicated Identification, Placement and Review Committee (IPRC) process, with consistent procedure
- integration opportunities within the student's school
- multi-disciplinary professional supports for students with special education needs
- timely access as required to appropriate equipment and materials
- timely access to information for parents about programs and services

Moving Forward in this Standard
LSS furthered the commitment to reflecting upon and expanding inclusive education within the service delivery model of the OCDSB. In particular, LSS has built upon the successes of elementary, secondary and itinerant inclusion teachers, who were funded through 2023-2024 Priorities and Partnership Funding (PPF), to support the development of inclusive educational practices across the District. In 2024-2025, school staff were allocated, by the school or through additional staff, to continue supporting these practices, resulting in supports responsive to student needs and more students working towards grade-level learning outcomes. This includes a new school that has intentionally woven inclusion into their school culture through several means, such as regular staff discussions about inclusion and prioritising in-class support for students as much as possible.

Definition of Terms

Accommodation includes special teaching and assessment strategies, human supports, and/or individualized equipment that help the student learn and demonstrate learning. Accommodations whether described in the IEP or by an individual should be provided. In an IEP, only strategies and supports that differ from what is normally provided during classroom instruction should be included. Accommodations that the student requires in connection with instruction, assessment and functioning in the physical environment should be listed separately as follows:

- *Instructional accommodations* - adjustments in teaching strategies required to enable the student to learn and to progress through the curriculum
- *Environmental accommodations* - changes or supports in the physical environment of the classroom and/or the school

- *Assessment accommodations* - adjustments in assessment activities and methods required to enable the student to demonstrate learning

Alternative Learning Expectations are statements in the IEP describing expectations developed to help students acquire knowledge and skills that are not represented in the Ontario curriculum expectations. Because they are not part of a subject or course outlined in the provincial curriculum documents, alternative learning expectations are considered to constitute alternative programs or alternative courses (i.e., secondary school courses). Examples of alternative programs/courses include speech remediation, social skills, orientation/mobility training, and personal care programs. Alternative programs/courses are provided in both the elementary and the secondary panels.

Applied Behaviour Analysis (ABA) is an effective instructional approach that uses methods based on scientific principles of learning and behaviour to build useful repertoires of behaviour and reduce problematic ones. For example, ABA methods can help a student to develop positive behaviours, learn new skills, and transfer a positive behaviour or response from one situation to another.

Asynchronous Learning is learning that is not delivered in real time. Asynchronous learning may involve students watching pre-recorded video lessons, completing assigned tasks, or contributing to online discussion boards.

Differentiated Instruction is a method of teaching that attempts to adapt instruction to suit the differing strengths and needs, interests, learning styles, and readiness to learn of individual students.

An **exceptional pupil** according to the Education Act is a pupil whose behaviour, communication, intellectual, physical or multiple exceptionalities are such that they are considered to need placement in a special education program by an Identification, Placement and Review Committee of the Board established in the Education Act (*Regulation 181*). Refer to OCDSB Special Education Programs and Services for detailed descriptions.

An **Identification, Placement and Review Committee (IPRC)** is a committee consisting of school board members and the parents/caregivers, and student (if 16 years of age or older). The committee decides whether or not a child should be identified as exceptional, identifies the areas of a student's exceptionality according to the categories and definitions of exceptionalities provided by the ministry, decides an appropriate placement for a student, and reviews the identification and placement at least once in each school year.

An **Individual Education Plan** (IEP) is a written plan describing the special education program and/or services required by a particular student. It identifies a variety of accommodations required to support the student's learning, learning expectations that are modified from or alternative to the expectations given in the curriculum document for the appropriate grade and subject or course, and/or special education services needed to assist the student in achieving their learning expectations.

In-School Team may consist of the Principal or designate, Learning Support Teacher (LST), Educational Assistant (EA), Head of Special Education/Special, Education/Student Services, classroom teacher, parents/caregivers and any of the following where appropriate: classroom teacher(s), Learning Resource Teacher (LRT), special education class teacher(s), Early Childhood Educator (ECE) and student if over 16 years of age.

Modifications are statements on the IEP that reflect the changes made to the grade-level expectations for a subject or course in order to meet a student's learning needs. Modifications may include the use of learning expectations at a different grade level and/or an increase or decrease in the number and/or complexity of expectations relative to the curriculum expectations for the regular grade level. At the secondary level, a credit may or may not be granted for a course, depending on the extent to which the expectations in the course have been modified.

The Multi-Disciplinary Team consists of members of the in-school team and various personnel who are assigned to support the school in areas of special education assessments and programming. These may include the Learning Support Consultant (LSC), Psychologist or Psychological Associate, Social Worker, Speech-Language Pathologist, Itinerant Teachers for the Blind/Low Vision, Itinerant Teachers for the Deaf/Hard of Hearing, Occupational Therapist, as well as, any of the system-based teams e.g. Student Success Teachers (SST), Autism Spectrum Disorder/Developmental Disabilities (Autism/DD) Team.

A **program** is a prescribed set of learning activities that has a basis in the Ontario Education Act, the regulations, the Ministry of Education guidelines or Ministry memoranda which would generally identify the scope and sequence of the learning activities, the target group, and the requirements for certification.

Provincial/Demonstration Schools are Ministry operated schools for students who are deaf, blind, deaf-blind or for students with severe learning disabilities. Residential programs are available for those students for whom distance precludes daily travel.

Remote Learning is learning that occurs when classes are taught at a distance and when students and educators are not in a conventional classroom setting. Remote learning takes place in times of extended interruption to in-person learning – for example, as a result of a pandemic or natural disaster. Classes can be synchronous or asynchronous and can be taught online through a Learning Management System (LMS) or by using videoconferencing tools. In some cases, they may be delivered through emails, print materials, broadcast media, or telephone calls.

Special Education Advisory Committee (SEAC) is a committee of a school board that provides important advice on special education. A SEAC may make recommendations to the board on any matter affecting the establishment, development, and delivery of special education programs and services for exceptional students in a board. Each school board in Ontario must establish a SEAC.

A **special education program**, as defined by the Ontario Education Act, is one based on and modified by the results of continuous assessment and evaluation and that includes a plan containing specific objectives and an outline of educational services that meets the needs of the exceptional pupil.

Special Education Services, as defined by the Ontario Education Act, refers to facilities and resources, including support personnel and equipment, necessary for developing and implementing a special education program.

Synchronous Learning is learning that happens in real time. Synchronous learning involves using text, video, or voice communication in a way that enables educators and other members

of the school- or board-based team to instruct and connect with students in real time. Synchronous learning supports the well-being and academic achievement of all students, including students with special education needs, by providing educators and students with an interactive and engaging way to learn. It helps teachers provide immediate feedback to students and enables students to interact with one another.

Tiered Approach is a systemic, sequential instructional approach that uses specific instructional interventions of increasing intensity to address students' needs. It can be used to address either the academic or behavioural needs of students who are having difficulty.

Tiered Intervention is a process of assessing, supporting, monitoring, and re-evaluating a student's progress by providing "just right" supports that allow the student to achieve academic success. The tiered approach to ongoing prevention and intervention embodies principles of universal design for learning and differentiated instruction, offers a systematic method for the early identification of students who are experiencing particular difficulties, and, through ongoing monitoring of their progress, provides the precise level of support those students need.

Transition Plan is the school's written plan to assist the student in making a successful transition. The transition plan is developed as part of the IEP. Under O.Reg.181/98, the IEP must include a transition plan for each exceptional student who is 14 years of age or older who is making the transition from secondary school to postsecondary activities, unless the student was identified as exceptional solely on the basis of giftedness. In addition, a transition plan must be developed for all students who have an IEP, whether or not they have been identified as exceptional by an IPRC and including those identified as exceptional solely on the basis of giftedness.

Universal Design for Learning (UDL) is a teaching approach that focuses on creating a learning environment that is open and accessible to all students, regardless of age, skills, or situation. Instruction based on principles of universal design is flexible and supportive, can be adjusted to meet different student needs, and enables all students to access the curriculum as fully as possible.

Acronyms Used in the Special Education Plan 2023-2024

ABA	Applied Behaviour Analysis
ADHD	Attention Deficit/Hyperactivity Disorder
ADP	Adaptive Devices Program
AODA	Accessibility for Ontarians with Disabilities Act, 2005
ASDP	Autism Spectrum Disorder Program
ASDSCSP	Autism Spectrum Disorder Secondary Credit Support Program
Autism/DD Team	Autism/Developmental Disabilities Team
BCBA	Board Certified Behaviour Analyst
BIP	Behaviour Intervention Program
BMP	Behaviour Management Plan
BST	Behaviour Support Team
CAC	Center for Augmentative Communication
CSP	Coordinated Service Planning
DD	Developmental Disability
DHH	Deaf/Hard of Hearing
DSP	Dual Support Program

EA	Educational Assistant
ELD	English Literacy Development
ECE	Early Childhood Educator
ELIP	Early Learning Intervention Program
ESL	English as a Second Language
GLP	General Learning Program
IBI	Intensive Behaviour Intervention
IEA	Itinerant Educational Assistant
IEP	Individual Education Plan
IPRC	Identification, Placement and Review Committee
ITAT	Itinerant Teacher of Assistive Technology
ITB/LV	Itinerant Teacher for the Blind/Low Vision
ITD/HH	Itinerant Teacher for the Deaf/Hard of Hearing
LD	Learning Disability
LDP	Learning Disability Program
LD SIP	Learning Disability Specialized Intervention Program
LLD	Language Learning Disability
LSC	Learning Support Consultant
LSS	Learning Support Services
LST	Learning Support Teacher
LRT	Learning Resource Teacher
MID	Mild Intellectual Disability
ML	Multilingual Learners
OCDSB	Ottawa-Carleton District School Board
OSR	Ontario Student Record
OSSD	Ontario Secondary School Diploma
OSTA	Ottawa Student Transportation Authority
OT	Occupational Therapist
PCLD	Provincial Committee on Learning Disabilities
PSP	Physical Support Program
PT	Physical Therapist
SAL	Supervised Alternative Learning
SEA	Special Equipment Amount
SEAC	Special Education Advisory Committee
SIP	Special Incidence Portion
SLP	Speech-Language Pathologist
SST	Student Success Teacher

Roles and Responsibilities

Purpose of the Standard

To provide the public with information on roles and responsibilities in the area of special education.

The Ministry of Education has defined roles and responsibilities in elementary and secondary education in several key areas:
- legislative and policy framework
- funding
- school system management
- programs and curriculum

It is important that all those involved in special education understand their roles and responsibilities, which are outlined below:

The Ministry of Education
- sets out, through the Education Act, regulations and policy documents including policy/program memoranda, the legal obligations of school boards regarding the provision of special education programs and services
- prescribes the categories and definitions of exceptionality
- requires school boards to provide appropriate special education programs and services for their students with special education needs
- establishes the funding for special education through the structure of the funding model
- requires school boards to report on their expenditures for special education services
- sets province-wide standards for curriculum and for reporting achievement
- requires school boards to maintain special education plans, review them annually, and submit amendments to the Ministry
- requires school boards to establish Special Education Advisory Committees
- establishes the Ontario Special Education Tribunals (French and English) to hear disputes between parents and school boards regarding the identification and placement of exceptional pupils
- establishes a Minister's Advisory Council on Special Education to advise the Minister of Education on matters related to special education programs and services
- establishes a Provincial Parent Association Advisory Committee on Special Education
- operates Provincial and Demonstration Schools for students who are deaf, blind, deaf-blind, or who have severe learning disabilities

The District School Board
- establishes school board policy and practices that comply with the Education Act, regulations and policy documents, including policy/program memoranda
- monitors school compliance with the Education Act, regulations and policy documents, including policy/program memoranda
- requires staff to comply with the Education Act, regulations and policy documents, including policy/program memoranda

- provides appropriately qualified staff to deliver programs and services for the students with special education needs in the board; reports on the expenditures for special education
- develops and maintains a special education plan that is amended from time to time to meet the current strengths and needs of the students with special education needs in the board
- reviews the plan annually and submits amendments to the Minister of Education; provides statistical reports to the ministry as required
- prepares a parent guide to provide parents with information about special education programs, services, and procedures
- establishes an IPRC process to identify students with special education needs and determines appropriate placements for them
- establishes a Special Education Advisory Committee
- provides professional development to staff on special education

The Special Education Advisory Committee (SEAC)
- makes recommendations to the board with respect to any matter affecting the establishment, development, and delivery of special education programs and services within the board
- participates in the board's annual review of its special education plan
- participates in the board's annual budget process as it relates to special education
- reviews the financial statements of the board as they relate to special education
- provides information to parents, as requested

The School Principal
- carries out duties as outlined in the Education Act, regulations and policy documents, including policy/program memoranda and board policies
- ensures that appropriately qualified staff are assigned to teach special education classes
- communicates Ministry and board policies and procedures about special education to staff, students, and parents
- ensures the identification and placement of exceptional pupils, through an IPRC, is done according to the procedures outlined in the Education Act, regulations and board policies
- consults with school board staff to determine the most appropriate program for students with special education needs
- ensures the development, implementation and review of a student's IEP, including a transition plan, according to provincial requirements
- ensures parents are consulted in the development of their child's IEP and that they are provided with a copy of the IEP
- ensures the delivery of the program as set out in the IEP
- ensures that appropriate assessments are requested and that, if necessary, appropriate consents are obtained

The Teacher
- carries out duties as outlined in the Education Act, regulations and policy documents, including policy/program memoranda
- follows board policies and procedures regarding special education
- works with the special education teacher to acquire and maintain current knowledge of special education practices
- works with special education staff and parents to develop the IEP for an exceptional student

- where appropriate, works with other school board staff to review and update the student's IEP
- provides the program for the exceptional student in the regular class, as outlined in the IEP
- communicates the student's progress to parents

The Special Education Teacher
In addition to the responsibilities listed above under "The Teacher", the following additional roles and responsibilities are included:
- holds qualifications, in accordance with the regulations under the Education Act, to teach special education
- monitors the student's progress with references to the IEP and modifies the program as necessary
- assists with providing educational assessments for exceptional students

The Early Childhood Educator
In coordination and cooperation with the classroom teacher, the early childhood educator:
plans for and provides education to children in Kindergarten:
- observes, monitors, and assesses the development of Kindergarten children
- maintains a healthy physical, emotional and social learning environment in the classroom
- communicates with families
- performs duties assigned by the principal with respect to the Kindergarten program

The Parents/Caregivers
- is familiar with and informed about board policies and procedures in areas that affect their child(ren)
- participates in IPRCs, parent-teacher conferences and other relevant school activities
- participates in the development of the IEP
- is acquainted with the school staff working with the student
- supports the student at home
- works with the school principal and educators to support their child(ren)
- is responsible for the student's attendance at school
-

The Student
- complies with the requirements as outlined in the Education Act, regulations and policy documents, including policy/program memoranda
- complies with board policies and procedures
- participates in IPRCs, parent-teacher conferences and other activities, as appropriate

Special Education Staff Roles and Responsibilities in the OCDSB

Superintendent of Learning Support Services	Kate Stoudt
System Principal of Learning Support Services	Deb Lyon
System Principal of Learning Support Services	Justin Shulman
General Manager of Learning Support Services	Emily Balla

Program Managers:

Program Manager Mental Health Services	Emily Balla
Program Manager Speech-Language Pathology and Occupational Therapy Services	Maya Kishida
Program Manager Psychological Services	Dr. Kristin Schaub
Program Manager Social Work Services	Melissa Chung
Program Manager for Educational Assistants	Leanne Forrest

Early Identification Procedures and Intervention Strategies

Purpose of the Standard

To provide details of the Board's early identification procedures and intervention strategies to the Ministry and to the public.

The OCDSB believes that early identification and intervention to address special educational needs is essential to student success. The District uses a range of effective practices to accomplish this, beginning from the time a student is registered to attend school in the OCDSB.

These procedures are a part of a continuous assessment and program planning process, which should be initiated when a child is first enrolled in school or no later than the beginning of a program of studies immediately following kindergarten, and should continue throughout the child's school life. Districts are therefore expected to provide a range of programs to assist students in meeting the curriculum expectations. These programs should include early identification of learning needs, appropriate teaching strategies, ongoing assessment, and communication with parents/caregivers and students (Policy & Program Memorandum No.11).

The OCDSB makes every effort to review the learning abilities and needs of all students as early as possible. Early and ongoing intervention is recognized as contributing to the well-being of all children and their ability to reach their potential. Continuous assessment and program planning should exist for students throughout the education process in response to presenting needs. Parents/caregivers are an integral part of the process and are encouraged to be involved in the education of their children from the beginning of their entry to school. Families have a wealth of knowledge and valuable information that can assist and support student success. Parents/caregivers are encouraged to share information with educators regarding their child's areas of strengths and needs as well as any other relevant information, medical or otherwise.

At Registration
When parents/caregivers register with the OCDSB, they will be asked to complete OCDSB Registration. This provides parents/caregivers with an opportunity to indicate whether or not their child has particular cognitive, behavioural, physical, medical or developmental needs, and whether they have been receiving special supports and services prior to their registration with the OCDSB. Parents/caregivers who provide information indicating that their child has or may have special educational needs may subsequently be asked to provide signed parental consent for board personnel to make contact with previous or current service providers (e.g. occupational therapy, physiotherapy, speech-language pathology, nursing support, special accommodations, etc.). This information may be used as part of early identification and to inform intervention strategies required at school.

If a student has been identified as exceptional in another school district, the school team will encourage parental participation in determining whether further assessment may be required and/or whether to initiate an IEP. If it is deemed appropriate, a recommendation to an IPRC may take place. Where appropriate, case conferences may be held with key stakeholders.

Student Registration Process - Kindergarten
Parents/caregivers are asked to complete a Parent/Caregiver Questionnaire to describe their child's strengths, interests, and areas of focus for the Kindergarten team. The information provided facilitates the entry of all children into the school system and helps to identify and address the level of development, learning abilities and needs.

The Kindergarten Educator Team (teacher, early childhood educator, and sometimes members of the special education team at the school) works collaboratively with the parent/caregiver as part of the transition to school.

For students who have participated in the Ontario Autism Program: Entry to School Program, transition support will be provided for six months once parents are registered in their community school.

Student Registration Process Grade 1 - 12
OCDSB registration provides an opportunity for families to identify if their child has a special educational need and/or has previously received special education support. This information will be reviewed by the school based team to identify potential supports.

If entering from another school in Ontario or moving from a school in our board, the Ontario Student Record (OSR) is requested using the required Ministry of Education form.

Student Data / Assessment Tools
Classroom educators collect a variety of assessment data for all students. This data provides information on students along a developmental continuum. The following represents examples of data collected by educators in the primary years:

Year 1 (Junior Kindergarten) & Year 2 (Senior Kindergarten)

Assessment Tools	Purpose / Description
Acadience Reading Screener (Y2 only)	Acadience Reading supports the early identification and progress monitoring of students who are at risk for reading difficulties. It measures the following skills: alphabetic principle, phonemic awareness, basic phonics, and word attack skills
Letter Naming/Sound Knowledge (See OCDSB Assessment Index)	A diagnostic tool to identify automaticity and accuracy with letter names (upper and lowercase) and corresponding sounds
Core Phonics Survey (see p. 41 Assessing Reading Multiple Measures book purchased for all OCDSB schools)	A diagnostic tool that measures both basic and advanced phonics that have a high application in beginning reading. It indicates the specific phonics concept a student needs instruction with and supports planning instruction and intervention
OCDSB Phonological Awareness Diagnostic (PAD)	An assessment tool created by OCDSB Speech-Language Pathologists. It can be used to screen or can be used diagnostically. Includes assessment of more complex

(See OCDSB Assessment Index)	manipulation tasks for students working beyond the basics, as well as assessment at the phonological level (e.g. compound words & syllables)
Foundational Concept Survey (See OCDSB Assessment Index)	An Informal assessment tool created by OCDSB Speech-Language Pathologists to assess student knowledge of language concepts used within literacy instruction. It provides information about foundational concepts and their importance as a foundation for learning
Developmental Indicators for the Assessment of Learning (DIAL-4)	To identify student strengths and needs in the areas of motor, concept, language, self-help, and social/emotional development
The Kindergarten Communication of Learning: Initial Observation	To provide an overview of initial observations of the student's learning To provide educators with data to inform program planning
The Kindergarten Communication of Learning	To provide reflections on the student's learning connected to the four program frames
Ongoing pedagogical documentation will be collected to identify developmental levels in all areas of learning	To provide evidence of learning that will be shared with parents/caregivers throughout the year To provide educators with data to inform intentional and purposeful programming

Grade 1-3

Assessment Tools	Purpose / Description
Achievement Data - Provincial Report Cards and ongoing classroom assessments based on the curriculum	To assess ongoing student progress and identify areas in need of remediation
Acadience Reading Screener	Acadience Reading supports the early identification and progress monitoring of students who are at risk for reading difficulties. It measures the following skills: alphabetic principle, phonemic awareness, basic and advanced phonics, word attack skills, reading fluency and comprehension
Core Phonics Survey (see p. 41 Assessing Reading Multiple Measures book purchased for all OCDSB schools)	A diagnostic tool that measures both basic and advanced phonics that have a high application in beginning reading. It indicates the specific phonics concept a student needs instruction with and supports planning instruction and intervention

OCDSB Phonological Awareness Diagnostic (PAD) (See OCDSB Assessment Index)	An Informal assessment tool created by OCDSB Speech-Language Pathologists. It can be used to screen or can be used diagnostically. Includes assessment of more complex manipulation tasks for students working beyond the basics, as well as assessment at the phonological level (e.g. compound words & syllables)

Tiered Approach for Early Identification and Intervention
(Assessment/Consultation/Intervention)

The tiered approach is an extremely effective approach to assessment and intervention which sequentially increases the intensity of instructional interventions (Learning for All – A Guide to Effective Assessment and Instruction for All Students, Kindergarten to Grade 12, 2013). It is a model that promotes and facilitates the early identification of students' learning abilities and needs.

In the early identification process, the teacher employs ongoing assessments (e.g.: screeners, observation checklists, inventories, portfolios, conferences, in-depth anecdotal records, formal/informal assessments) and shares outcomes/next steps with the parents/caregivers.

Proactive professional support at the Tier 1 level facilitates prevention of learning gaps and early identification of students who may require further support.

Examples of LSS' proactive and preventative support include the following:

- In collaboration with an Instructional Coach and SATE team, speech-language pathologists provided training and coaching support to Early Childhood Educators and parents/caregivers in the areas of oral language and early literacy for the Kindergarten Summer Learning Academy, which engaged students in a wide range of learning experiences prior to their school entry

- Beginning in Fall 2023, speech-language pathology services prioritized services in Kindergarten, which included collaborative administration of baseline measures on oral language and literacy, as well as Tier 1 (general classroom) and Tier 2 (small targeted group) programming

The goal of proactive and preventative support at the Tier 1 and Tier 2 levels is to strive for an early identification and early intervention, which in the end will reduce the number of students who require Tier 3 support over time.

The following early interventions are available to all students demonstrating learning difficulties, whether identified through an IPRC or not. These strategies are typically discussed with parents/caregivers and appropriate school or system level staff prior to implementing them in the classroom:

- primary teachers use a variety of strategies to teach phonemic development, phonological awareness, word recognition, decoding and comprehension
- special education teachers (LST/LRT) may work directly with students who need more intensive learning support
- program differentiation and classroom accommodations are developed for students as required
- development of student Safety Plans, Behaviour Management Plans (BMP)
- system level LSS staff are available to provide information, resources, and programming support for schools that have students with significant special needs. Referrals for system level supports originate from the school or LSS department (e.g.: Early Learning Team, Autism/Developmental DisabilitiesTeam (Autism/DD Team), Itinerant Educational Assistants, and Social Emotional Learning Teachers)
- multi-disciplinary team service via appropriate referrals (e.g.: psychology staff, social workers, occupational therapists and speech-language pathologists
- professional services staff consultations with teachers or individual students to provide specific strategies to support the learning environment (with written parental consent)

As detailed in *Part 4 - Coordination of Services with Other Ministries or Agencies*, the OCDSB works collaboratively with several community partners (e.g., First Words, CHEO) to maximize opportunities for early identification of special needs and to apply effective intervention strategies.

Moving Forward in this Standard
The kindergarten entry process needs to be a welcoming and accessible experience for all OCDSB families. Kindergarten information nights will be available and opportunities for families to connect with school based teams about their children are available through the spring and toward the end of summer.

In addition, the Ministry of Education has announced that there will be a new Kindergarten curriculum available for implementation in September 2025. The new curriculum will lay the foundation for strong reading, writing and math skills, and allow educators to identify difficulties for learners and implement early interventions. In addition, the Ministry has announced that mandatory reading screeners will be administered and reviewed on a regular basis to monitor student progress and provide information to educators about appropriate interventions.

The Identification, Placement and Review Committee (IPRC) Process and Appeals

Purpose of the Standard

To provide details of the Board's IPRC process to the Ministry and the public.

The Identification, Placement, and Review Committee (IPRC), is a formal committee that meets and decides if a student should be identified as exceptional, and if so, the placement that will best meet the student's needs. When a student is identified as exceptional through an IPRC, an IEP is developed. The IEP is used to document the individual program expectations. To support parent/ caregiver understanding of the IPRC process, the OCDSB has developed a resource called the Identification Placement and Review Committee Parent Guide.

The OCDSB currently uses the IEP Online (IOL) platform to support the creation, development, and record maintenance related to the IPRC process.

What is an IPRC?
Ontario Education regulation 181/98 requires that all school boards establish Identification, Placement, and Review Committees (IPRCs). The IPRC has a legal responsibility to make decisions about the identification of pupils as exceptional and placement of pupils into special education programs and services.

Parents/caregivers and students 16 years of age or older are encouraged:
- to be present at, participate in, all committee discussions pertaining to the pupil
- to have a representative present at an IPRC if so desired
- to be present when the committee's identification and placement decision is made
- to initiate a request for an IPRC

An IPRC is composed of at least three people, one of whom must be the school principal or designate. The other members of the committee can be any other staff including principals, professional services staff, or teachers (LST, LRT, specialized program class, or classroom).

The purpose of the IPRC is:
- to identify the areas of strength and areas of need of the student
- to determine whether the student is, or is not, exceptional
- to identify a specific exceptionality, or exceptionalities, if applicable
- to recommend an appropriate placement in a program designed to meet the identified needs of the student
- to serve as an annual review for students who have been identified by an IPRC

To establish the exceptionality and placement of the student the IPRC considers:
- both formal and informal assessment results completed at the school level (e.g. educational assessments) and from outside professionals (e.g. medical doctors, psychologists, psychological associates or psychiatrists)
- information from parents/caregivers, their advocates and the student
- a summary of attempted intervention strategies

If deemed exceptional, the exceptionality and definition will appear on the IPRC Statement of Decision.

Requesting an IPRC Meeting
There are two ways to refer a student to an IPRC meeting:

1. Request for referral to an IPRC by the principal (in collaboration with school staff). If the request is made by the principal, they must provide written notice to the student's parents/caregivers, or where appropriate student of the referral to an IPRC. Within 15 days of the date on which the principal gave written notice of the referral to the parents/caregivers, and/or student (16 years of age or older), the principal must provide a written statement setting out approximately when the IPRC is expected to meet to discuss the student. It is also required that the OCDSB IPRC Parent Guide accompany this written communication.
2. Request for referral to an IPRC by the parents/caregivers, and/or student. A parent/caregiver, and/or student (16 years of age or older) may ask a principal for a referral to an IPRC. This request must be made in writing and, on receipt, the principal must refer the student to an IPRC. Within 15 days of receiving the request for referral, the principal must provide a written statement acknowledging the receipt of the request and advise approximately when the principal expects the IPRC will meet to discuss the student. A copy of OCDSB IPRC Parent Guide must be provided to the referring parents/caregivers and/or student (16 years of age or older).

Prior to an IPRC Meeting
It is recommended that the school team contact parents/caregivers for a preliminary discussion prior to an IPRC meeting, to:
- ensure they understand the process
- their rights related to the process
- review any results that have been gathered to inform the process
- explain any recommendations that will be made by the school team
- answer any questions they may have prior to the IPRC meeting

Administrators must be mindful and consider the required communication needs of the family and ensure that appropriate translation or interpretation services are provided when required.

At least 10 calendar days in advance of an IPRC meeting, the principal will provide written notification of the meeting and an invitation to the parents/caregivers to attend. This letter notifies parents/caregivers of the date, time, location of the meeting, and it will prompt them to indicate if they will be in attendance.

For initial IPRCs the OCDSB *Identification, Placement and Review Parent Guide* will be provided to the parents/caregivers. A copy is available on the OCDSB website. It is expected that principals will send out this guide to accompany the notification of the initial IPRC meeting form.

Initial IPRC Meeting

Initial IPRC Meeting Overview
- the date, time, and location of the meeting are predetermined and established
- the chairperson (i.e. the school principal or designate) welcomes and introduces the individuals present, their roles, and explains the purpose of the meeting
- parents/caregivers, school personnel, and others in attendance are invited to provide further information in an open discussion format
- based on all the information available for consideration, the committee will make a decision regarding the identification and placement for the student
- if the IPRC requires further information, the decision will be deferred to such a time that the information becomes available
- the IPRC will reconvene at the earliest available date. parents/caregivers will be provided with details and a timeline of when they should expect to return to the IPRC

Following the IPRC, the committee will provide a written statement of their decision including the identification and placement (if any) and specific recommendations for programs to the parents/caregivers and the student of 16 years of age or older. Parents/caregivers will be asked to sign the statement of decision and return it to the school. For students who are identified as exceptional, there must be an annual review of the student's identification and placement unless the annual review is waived or dispensed by the parent/caregiver or student of 16 years of age or older.

If the IPRC determines that the student is exceptional, then the committee must determine which category or definition of exceptionality as defined by the Ministry of Education applies to the student.

The possible categories are as follows:

Category	Exceptionality
Behaviour	Behaviour
Communication	Autism Deaf/Hard of Hearing Learning Disability Language Impairment
Intellectual	Developmental Disability Mild Intellectual Disability Giftedness
Multiple Exceptionalities	Combination of learning or other disorders, impairments, physical disabilities
Physical	Blind/Low Vision Physical Disability

Once the student has been identified as exceptional, the IPRC must determine the appropriate placement for the student. Most students are placed in the regular class with appropriate special education services.

The list below is a definition of each possible placement that may be offered to a student during an IPRC process:

- **Indirect Service (IS):** A regular class with indirect support where the student is placed in a regular class for the entire day, and the teacher receives specialized consultative services

- **Resource Assistance (RA):** A regular class with resource assistance where the student is placed in a regular class for most or all of the day and receives specialized instruction, individually or in a small group, within the regular classroom from a qualified special education teacher

- **Withdrawal Assistance (WA):** A regular class with withdrawal assistance where the student is placed in a regular class and receives instruction outside the classroom, for less than 50 percent of the school day, from a qualified special education teacher

- **Partial Integration (PI):** A special education class with partial integration where the student is placed by the IPRC in a special education class in which the student-teacher ratio conforms to Regulation 298 Section 31, for at least 50 percent of the school day, but is integrated with a regular class for at least one instructional period daily

- **Fully-Self Contained (FSC):** A full-time special education class where the student-teacher ratio confirms to Regulation 298 Section 31, for the entire school day

Regulation 181/98 requires that before the IPRC can consider placing a student in a special education class, it must consider whether placement in a regular class with appropriate special education services will:
- meet the student's needs
- be consistent with parent/caregiver preferences
- use relevant assessment information

IPRC Statement of Decision
Once the IPRC has reached its decision, the chair of the committee (principal) is required to send or provide a written statement of the decision of the IPRC. The statement of decision must indicate the following details:
- a description of the student's strengths and needs assessed by the committee
- the categories and definitions of any exceptionalities identified by the committee, based on those established by the Ministry of Education
- the IPRC's decision of placement
- the IPRC's recommendations, if any, on special education services/programs that would be appropriate for the student
- when the recommended placement includes a placement in a special education class, and a referral to a central referral committee has been reviewed and a placement has been recommended and offered, the reason for this decision must be captured

If a parent/caregiver does not agree with the decision, they should not sign the IPRC statement of decision at the meeting. The parent/caregiver may:
- within thirty days of receipt of the initial IPRC decision, file a notice of appeal with the secretary of the Board (who is usually the director of education)
- request a second meeting within fifteen days with the committee by providing written notice to the chair of the IPRC. The chair of the IPRC will arrange for a meeting to be held as soon as possible

After the follow-up meeting, the IPRC chair will inform the school board and the parents if any changes were made to the IPRC decision and, if so, provide a revised statement of decision and written reasons for the changes. parents/caregivers will be asked to consent to the revised identification and/or placement decision.

If the parents/caregivers disagree with the revised decision, they may within fifteen days of the receipt of the decision of the second meeting, file a notice of appeal with the secretary of the board.

The IPRC Appeal Process
Should the parents/caregivers disagree with the identification and/or the placement statements from the Committee, one of the System Principals of Learning Support Services and/or the Superintendent of Education for the school should be invited to a follow-up meeting with the parents/caregivers and the Committee members. Every attempt will be made to resolve the concerns at this level.

Should this follow-up discussion not resolve matters, the parents/caregivers have the right to appeal the recommendations of the IPRC. The appeal can only be based on disagreement with the identification and/or the placement of the student. A statement setting out reasons for the disagreement must be included. The request for an appeal must be made in writing within 15 calendar days of the follow-up meeting or within 30 calendar days of receipt of the statement from the IPRC. (In regards to all matters pertaining to appeals, days shall mean calendar days. Where time is limited and the expiry date falls on a school holiday, the time limit shall be extended to the next day following that is not a school holiday. During summer holidays, which are defined as periods of time that school is not in session, requests for appeals will be deferred to the day following the summer holiday, as per Regulation 304.

This request will be directed to: Director of Education/Secretary of the Board
Ottawa-Carleton District School Board
133 Greenbank Road, Nepean, Ontario K2H 6L3
Email: director@ocdsb.ca

Appeal Board Membership
The Appeal Board shall be composed of three members who must not be members or employees of the Board or Ministry, and who must not have had any prior involvement with the matter under appeal. Two members are to be appointed within 15 calendar days of receipt of the notice of appeal by the Secretary of the Board. These members will include:

 a) one member selected by the OCDSB
 b) one member selected by parents/caregivers

The Chair is selected and appointed jointly by the above members a maximum of 15 calendar days later, then makes arrangements for the meeting to be held within 30 calendar

days after. The Chair of the Appeal Board will notify the parents/caregivers of the meeting date and time, and invite them to attend. Please note: if agreement cannot be reached, the Chair shall be selected by the Regional Manager at the Ministry of Education.

Role of the Appeal Board
The role of the Appeal Board is to:
● consider all opinions, views, and information concerning the appeal from the parents/caregivers, their representative, and the representatives from the OCDSB
● the Appeal Board must make its recommendations within 3 days of the meeting's completion
● a written report of its recommendations must be provided to the parent/caregiver/student (if 16 years of age or older), and the OCDSB

Steps after the Appeal Board Meets
● the Chair of the Appeal Board will present recommendations to the Board of Trustees within 30 calendar days
● within 30 calendar days of the Appeal Board's decision, the OCDSB notifies the parents/caregivers/ student (if 16 years of age or older) whether it accepts or rejects the Appeal Board's decision
● if the parents/caregivers disagree with the decision of the Appeal Board, the parents/caregivers may further appeal to an Ontario Special Education Tribunal under *Section 57* of the *Education Act*. Information about making an application to the tribunal will be included with the Appeal Board's decision

All documents submitted to the Appeal Board will remain confidential to the members of the Appeal Board. Parents have the right to request mediation, as indicated in the Education Act and the Board policy on this issue.

Appeals, Tribunals, Mediations
It should be noted that appeals may be submitted following an IPRC process and requests for reconvening an IPRC meeting.

An overview of all IPRC referrals, reviews, and appeals completed in the OCDSB over the past three school years:

School Year	Initial IPRC	IPRC Reviews	Special Education Appeal Board
2024-2025	501	3951	1
2023-2024	607	3906	1
2022-2023	563	3976	0
2021-2022	496	4837	0
2020-2021	421	5139	0
2019-2020	595	5449	1

Annual Review IPRC Meeting/Process   All
students that have an IPRC are reviewed annually by the school team and
parents/caregivers. An annual IPRC reviews the following: the student's progress, current
statements of strengths and needs, exceptionality and placement:

- an IPRC review may not occur more often than once every three month period *(Reg. 181/98, s.21 (2) the Education Act)*.
- parents/caregivers who are in agreement with the recommendation of the school team may waive the requirement to hold an annual review IPRC meeting. *Reg. 181/98, s.21 (4b)* states that, where there are no changes to the identification or placement, a parents/caregivers may choose to waive or dispense of the requirement to hold an IPRC by signing and returning to the school a waiver letter which states that they agree with the school's recommendations

Parent/Caregiver Request for a Review
- a request by a parent/caregiver for a review may be made at any time after the initial placement has been in effect for three months, but may not be more than once in every three-month period.
- a request for review outside of the normal annual review process, must be provided in writing to the school principal.
- upon receipt of a parent/caregiver request for review, the principal will, within 15 calendar days, provide the parent/caregiver with a written statement acknowledging the request, a copy of the OCDSB IPRC guide and a written statement indicating an approximate meeting date/time

Moving Forward in this Standard
The IPRC parent guide underwent a thorough review and rebranding to be inline with the IEP
parent guide. Moving into next year, the following supports and initiatives will be provided to
staff, families, and the community:
- continued improvements within IEP Online (IOL) platform to support efficiency and functionality for school staff and families

Educational and Other Assessments

Purpose of the Standard

To provide details of the board's assessment policies and procedures to the ministry and to make parents aware of the types of assessment tools used by the school board, the ways in which assessments are obtained by IPRCs and the ways in which assessments are used.

The OCDSB uses a range of assessment strategies in order to develop appropriate programs and interventions for students. The goal of any assessment is ultimately to best serve the needs of a student by providing staff with insights and information into a student's strengths, needs, and learning profile. The variety of assessment strategies may range from routine classroom practice to formalized assessments, which may be conducted by professionals with specialized knowledge and training.

Should an assessment involving personnel other than the classroom teacher or special education teacher (LRT/ LST) be considered, the process will be discussed with parents/caregivers and the student (as appropriate) prior to the assessment. At this time, signed consent is provided, followed by informed consent which is required prior to the beginning of the assessment.

Identification vs. Diagnosis
An **identification** is defined by the Education Act and states that a student has special needs and is an exceptional pupil (under one or more of the Ministry of Education categories). A **diagnosis** is defined by the *Ontario Regulated Health Professions Act*, which means "identifying a disease or disorder as the cause of the symptoms of an individual in circumstances in which it is reasonably foreseeable that the individual will rely on the diagnosis."

In the OCDSB, there a variety of assessments, they are as follows:

School-Level Assessments
- teacher-developed assessments, including observation and consultation
- educational assessments by qualified special education staff to identify student strengths and needs
- Program and Learning department supported screeners, diagnostics and assessments (e.g. Acadience, DIBELS, etc.)

District-Level Assessments
- assessments to facilitate consistency of grading across the system
- norm-referenced achievement and abilities testing to assist in identifying students with special program or placement needs
- professional assessment (psychological, social work, speech and language, behaviour) to identify students' strengths and needs for appropriate program and placement

Provincial Assessments
- criterion referenced assessments to determine if students have acquired sufficient skills to move toward graduation (at secondary)

- criterion referenced assessment to measure progress towards the attainment of curriculum expectations and standards
- reading, writing and numeracy assessment as prescribed by the Ministry of Education

Confidentiality and Rights to Privacy
- written and informed parent/caregiver consent must be obtained for psychological, social work, behavioural and speech- language pathology assessments for students under the age of 18
- written and informed consent is obtained for educational assessments for students under the age of 18
- information can only be shared with outside agencies and other professionals with written parents/caregivers consent or with written consent from the student if they are 18 years of age or older
- third party confidential reports are the responsibility of the professional to whom they are released
- third party confidential reports are filed in the OSR, or with LSS, according to parents/ caregivers consent
- LSS staff will obtain parents/caregivers consent to communicate third party report information to the school

Classroom Teacher
In order to best serve the strengths and needs of a student, effective assessment and instruction planning are required. Teachers gather a variety of information about their students through observations, conversations, and discussions with the student and their parents/caregivers. Teachers also reference a collection of student work samples and other informal classroom oral and written assessments. Through regular and ongoing dialogues with the parents/caregivers and the student, teachers gain additional information to help them to develop a student profile.

To determine appropriate programming and/or placement the following assessments may be administered:

Educational Assessments
- are used to determine appropriate programming for students
- may include norm-referenced achievement testing to assess acquisition of basic academic skills
- may be required for a student to be referred for an individual assessment by professional services staff or personnel
- may be part of information that is used to inform the IPRC process
- include reports containing background information, current learning strengths and needs, a summary of recommendations (e.g. in-class program accommodation and/or modification, resource support, etc.)
- will be conducted only after obtaining informed parents/caregivers consent
- will be shared only with school staff who work directly with the student and are then stored in the student's OSR
- are only shared with outside agencies if the parents/caregivers have consented which is documented in a Release of Information Form
- are administered by teachers with Special Education qualifications that align with the relevant assessment tool

Psychological Assessments
- are based on current and historical information
- reflect evidence based practice for assessing culturally and linguistically diverse students
- include standardized and dynamic psychological tests, observations, interviews with a student, professional judgment, clinical skills, multi-disciplinary discussion and consultation with parents/caregivers to gain insight into a student's overall functioning including behaviour, personality, intellectual profile, learning style and achievement
- are conducted by psychologists and psychological associates who are registered members of the College of Psychologists of Ontario or psychoeducational consultants who are supervised by psychologists

The legislative underpinning supporting this service delivery model includes the *Regulated Health Professionals Act (RHPA), 1991, the Psychology Act, 1991* and *the Health Care Consent Act, 1996.*

Social Work Histories
- are based on current and historical information
- focus on the social emotional development of the student
- include the student's functioning within the context of their family and the school environment
- involve suggestions for culturally relevant and responsive intervention that look at the student's strengths and needs in the context of family, school and community
- are conducted by social workers who are members of the Ontario College of Social Workers and Social Service Workers

The legislative underpinning supporting this service delivery model includes the *Education Act 1990, The Child, Youth, and Family Services Act 2017.*

Speech/Language Assessments
- are based on current and historical information
- reflect evidence-based practice for assessing culturally and linguistically diverse students
- include the evaluation of communication, oral and written language skills (e.g., listening, understanding, speaking, reading and writing) as emphasized in the Ontario curriculum and as required for participation in an inclusive and caring classroom and community
- include multidisciplinary discussion, consultation & case history interviews with parents/caregivers, observations, professional judgement, clinical skills, administration of standardized/non-standardized/dynamic measures, and provision of recommendations for programming across any of the three tiers of special education support
- may include one or more of the following areas:
  - receptive and expressive language skills
  - reading, writing, and related skills (e.g., phonological awareness)
  - social/pragmatic and executive-functioning/cognitive-communication skills
  - functional communication and augmentative & alternative communication skills
  - oral motor, speech sound production, fluency, voice and resonance, to access services delivered through CHEO School Based Rehabilitation Services and/or OCDSB Parent Articulation Training Program (PATP)
  - are conducted by speech-language pathologists who are members of the College of Audiologists and Speech-Language Pathologists of Ontario

The legislative underpinning supporting Speech-Language Pathology services includes the *Regulated Health Professionals Act (RHPA), 1991 and the Audiology and Speech-Language*

Pathology Act, 1991. The Inter Ministerial Guidelines for the Provision of Speech and Language Services, 1988 is also followed in determining type and level of service provided.

Occupational Therapy Assessments
- are based on current and historical information
- integrate relevant evidence, promote equity in practice, contribute to equitable access to occupational participation, and seek out resources to help develop culturally safer and inclusive approaches to assessment
- may include multidisciplinary discussion, consultation and collaboration with school teams, case history interviews with parents/caregivers, observations in the school environment, occupational analysis, clinical reasoning, administration of standardized/non-standardized measures, and provision of recommendations for programming across any of the three tiers of special education support
- may explore the following areas:
  - analyze the effects of systemic and historical factors on students, groups, and their occupational possibilities
  - support the factors that promote health, well-being, and occupations
  - identification of a student's emotional, behavioural, and sensory regulation capacity and strengths
  - evaluation of a student's sensory processing differences and impact on participation in the classroom and school environment
  - assist with obtaining resources and equipment to access the school curriculum
  - modification/enhancement of the classroom and school environment to meet the student's learning needs
- are conducted by occupational therapists who are registered with the College of Occupational Therapists of Ontario

The legislative underpinning supporting Occupational Therapy services includes the *Regulated Health Professionals Act (RHPA), 1991,The Occupational Therapy Act, 1991, and the [Competencies for Occupational Therapists in Canada. ACOTRO, ACOTUP & CAOT (2021)](#)*.

Assessments conducted outside of the OCDSB
Since school districts set their own criteria (based on the Ministry of Education categories of exceptionalities), the OCDSB does not automatically recognize previous identifications and placements held by students. Professional services staff review assessments, with parents/caregivers consent, in order to make a determination at a school level of potential recommendations for identification and placement, where appropriate. The assessments must be conducted by a qualified professional (according to the standards set by each profession in Ontario). Medical information pertinent to accommodation of the student is directed to the school principal.

Assessment Results
Assessment results are provided to parents/caregivers through meetings with parents/caregivers and appropriate school and/or board personnel as required, and written reports.

Assessment information is collected under the authority of the Education Act, and will only be used to plan and evaluate a student's program. The information is confidential and access will be limited to those employees who have an administrative need, the student, and parents/caregivers of a student who is under 18 years of age.

2024-2025 OCDSB Waitlist for Learning Support Services
Waitlists are fluid and maintained at a school level using a multidisciplinary team approach to prioritize students based on need. A range of supports and services are available to address student needs while waiting for formal assessment.

In an effort to collect more accurate waitlist data, there has been a transition to a new method of collecting data (IOL - Clinical Services Module) for professional assessments. This was fully implemented in the fall of 2024 and as such there is incomplete waitlist data to share for 2024-2025.

The data outlined below is being shared in order to provide context and a snapshot of previous waitlist data for professional assessments. Overall trends have remained consistent across the last three years. With this consistency over time and no variables to indicate a reason to believe it would be significantly different, we would predict that 2024-2025 would have maintained a similar waitlist to previous years.

Central data for students waiting for speech-language pathology, psychology or educational assessments as of June, 2023 is as follows:

Type of Assessment	Total Number of Assessments Pending	Estimated Wait Time for Assessments
Educational Assessment	445	2.7 months
Psycho-educational Assessment	457	5.5 months
Speech-Language Pathology Assessment	218	2 months

Specialized Health Support Services in School Settings

Purpose of the Standard

To provide details of the board's specialized health support services to the ministry and to the public.

Partnering with the CHEO, below is a summary of the specialized health support services provided.

For further detailed information, please reference the list of programs and health information on the [CHEO](#) website.

Service	Agency or position of person who performs the service	Eligibility criteria for students to receive the service	Position of person determining eligibility of service and the level of support	Criteria for determining when the service is no longer required	Procedure for resolving disputes about eligibility and level of support (if available)
Nursing	CHEO and their contracted agencies	Attendance at an elementary or secondary school Student is under the care of a physician Student requires nursing care at school School principal/ personnel can identify student to CHEO by calling care coordinator Medical orders are required — will be obtained by care coordinator	CHEO care coordinator Attending physician	Medical staff and CHEO determine that services are no longer required Change in medical status	Case conference Parents/ caregivers can appeal to CHEO Contact person —care coordinator 613-737-7600 ext.1794 CHEO appeals process under review
Nutrition	CHEO and their contracted nutritional agencies	Attendance at an elementary or secondary school Student is under the care of a physician Student has an Ontario Health Card Student requires nutritional care at school School principal/ personnel can identify/refer student to CHEO by calling case manages	CHEO care coordinator	Achievement of nutritional goals Student no longer requires/ benefits from nutrition services at school	Case conference parents/caregivers can appeal to CHEO Contact person — care coordinator 613-737-7600 ext.1794 CHEO appeals process under review
Physiotherapy (PT)	CHEO	Attendance at an elementary or secondary school Student requires physiotherapy to attend school School principal and personnel refer student to CHEO using the Occupational Therapy and Physiotherapy referral form	CHEO	Student has achieved treatment goals. No supports available in school to implement/practice recommendations Student has irregular attendance at school Student has strategies/program in place; ongoing practice required. Student and/or family no longer consent to professional interventions. The student no longer meets the eligibility criteria for therapy services. NOTE: Students are not required to master the areas of difficulty identified by the therapist before being considered for discharge. School and home will continue to support the goals and strategies developed by the therapist, as a mastery of skill requires practice on a regular basis	School Based Rehabilitation Services 613-737-7600 x6256 Parents/caregivers can reach out to CHEO's Patient Experience - CHEO

Service	Agency or position of person who performs the service	Eligibility criteria for students to receive the service	Position of person determining eligibility of service and the level of support	Criteria for determining when the service is no longer required	Procedure for resolving disputes about eligibility and level of support (if available)
Occupational Therapy (OT)	Board Staff - Occupational Therapist (OT)	Attendance at an elementary or secondary school Significant and complex sensory processing concerns that require timely intervention to optimize safety and engagement at school School LST discusses student with LSC; LSC initiates a referral in IOL	Board OT	Student is active on the CHEO and their contracted therapy agency (CommuniCare) waitlist Parents/caregivers no longer consent to board OT support Training on safe and appropriate use of SEA equipment has been provided to the school team; tools are being used regularly and suggested support plan has been provided Student has graduated from an OCDSB school	Case Conference
Occupational Therapy (OT)	CHEO and their contracted therapy agency (CommuniCare)	Attendance at an elementary or secondary school Student requires occupational therapy to attend school (has fine/gross motor difficulties, mobility concerns, issues with accessibility and safety issues impacting ability to access school environment) School principal and personnel refer student to CHEO using the Occupational Therapy and Physiotherapy referral form	CHEO	Student has achieved treatment goals. No supports available in school to implement/practice recommendations Student has irregular attendance at school Student has strategies/program in place; ongoing practice required. Student and/or family no longer consent to professional interventions. The student no longer meets the eligibility criteria for therapy services. NOTE: Students are not required to master the areas of difficulty identified by the therapist before being considered for discharge. School and home will continue to support the goals and strategies developed by the therapist, as a mastery of skill requires practice on a regular basis	School Based Rehabilitation Services 613-737-7600 x6256 Parents/caregivers can reach out to CHEO's Patient Experience - CHEO

Service	Agency or position of person who performs the service	Eligibility criteria for students to receive the service	Position of person determining eligibility of service and the level of support	Criteria for determining when the service is no longer required	Procedure for resolving disputes about eligibility and level of support (if available)
Speech and Language Assessment (Consultation, screening, informal and formal assessments)	Board staff - Speech-Language Pathologist (SLP) First Words	School referral to board SLP Intake information completed by LST	SLP First Words	Consultation, screening and/or assessment are completed	Case conference
Speech and Language Tiered Intervention	Board staff – SLP (language and communication)	Tier 1, Tier 2, Tier 3 support based on educator and student needs Student-specific referrals for Tier 3	SLP	Suggested support plan has been provided	Case conference
Speech and Language Support in Specific Specialized Program Classes	Board staff — SLP	Student placement in one of the following specialized program classes: Language Learning Disability (primary & junior) Developmental Disabilities Program (senior kindergarten, primary,junior, intermediate), Primary Special Needs (primary/junior) Autism Spectrum Disorder (primary, junior, intermediate) Physical Support Program Learning Disability Specialized Intervention Program	School Multi-Disciplinary Team Specialized program class recommendation committee SLP	Student transferred out of the listed specialized program classes to another placement	Case conference Appeal IPRC placement
Language (mild to moderate): Parent Language Training Program (PLTP)	Board staff -SLP	Student presents with characteristics consistent with a language disorder with impairments in the mild to moderate range. as determined by a speech and language assessment	Board SLP Referring SLP in community (First Words, CHEO and their contracting agency (Communicare), CHEO CTC, private practice)	Workshop has been provided to parents/caregivers	Case conference

Service	Agency or position of person who performs the service	Eligibility criteria for students to receive the service	Position of person determining eligibility of service and the level of support	Criteria for determining when the service is no longer required	Procedure for resolving disputes about eligibility and level of support (if available)
Articulation (mild): Parent Articulation Training Program (PATP)	Board staff- SLP	Student has mild articulation difficulty and is stimulable for targeted sounds	Board SLP Referring SLP in community (First Words, CHEO School-based Rehabilitation Services, CHEO CTC, private practice)	Workshop has been provided to parents/caregivers	Case conference
Articulation (moderate to severe), motor speech, fluency, voice, resonance	CHEO and their contracted therapy agency (Communicare)	Attendance at an elementary or secondary school Student meets eligibility and behavioural criteria for direct therapy Student is in senior kindergarten or older School board or other SLPs refer student to CHEO using the School Speech Therapy referral form after initial assessment	CHEO care coordinator Board staff — SLP pre-referral assessment (Board SLP determines eligibility for referral; CHEO therapist determines eligibility for service)	Discharged when presenting with a mild to moderate articulation problem. CHEO may discharge to Parent Articulation Training Program (PAT-P) Parental request for termination of service No follow-up support Further discharge criteria as per CHEO	School Based Rehabilitation Services 613-737-7600 x6256 Parents/caregivers can reach out to CHEO's Patient Experience - CHEO
Administration of Prescribed Medications	Board staff — educational assistant (EA), teacher, principal, office staff	Request must be made in writing from the parent and physician Physicians must specify the medication, dosage, frequency, method, side effects, and the duration of administration (as per MOE Policy/ Program Memo. No. 81)	Physician Parents/caregivers Principal	Direction from physician and approval of parents/caregivers	Case conference
Catheterization	Board staff — EA (trained by appropriate agency) Student	Dependent or assistance required for catheterization	Physician Parents/caregivers Principal	Direction from physician and approval of parents/caregivers Independence achieved for self-catheterization Change in medical condition	Case conference

Service	Agency or position of person who performs the service	Eligibility criteria for students to receive the service	Position of person determining eligibility of service and the level of support	Criteria for determining when the service is no longer required	Procedure for resolving disputes about eligibility and level of support (if available)
Suctioning shallow deep	Shallow suctioning — Board staff — EA Deep suctioning Home and Community Care Support Service Champlain (HCCSSC) contracted agencies	Physician's direction Physiotherapy recommendation	HCCSSC care coordinator Medical staff	Direction from physician Change in medical condition	Case conference Appeal to HCCSSC
Lifting and Positioning	Board staff - EA trained by OT/PT from CHEO School-based Rehabilitation Services CHEO and Board OT/PT trainers	Dependent for lifting and positioning and transfers	CHEO OT/PT Physician Principal	Independence achieved for transfers Changes in medical condition Upon physician's or therapist's direction	Case conference
Assistance with Mobility	Board staff - EA Trained OT/PT Board staff- EA trained by OT/PT from CHEO School-based Rehabilitation Services	Dependence training or/assistance required for mobility Physician's Assessment	Principal OT/PT Board and CHEO	Effective and comfortable use of new equipment or adjusted equipment	Case conference
Feeding	Board staff- EA trained by HCCSSC contracted nursing agencies	Dependent assistance required for feeding Physician direction	Physician Principal HCCSSC care coordinator	Direction from physician and approval of parents/caregivers Change in feeding needs	Case conference
Toileting	Board staff - EA trained by appropriate professional/ agency	Dependent and/or requiring assistance for toileting	Principal Physician direction and parental approval	Direction from physician and approval of parents/caregivers	Case conference

Service	Agency or position of person who performs the service	Eligibility criteria for students to receive the service	Position of person determining eligibility of service and the level of support	Criteria for determining when the service is no longer required	Procedure for resolving disputes about eligibility and level of support (if available)
Medical Dressing	Board staff - EA	Physician direction and parental approval	Physician Parent Principal	Physical direction and parental approval	Case conference

Program Criteria: Nutrition (Registered Dietitian (RD) Services)
- school support – appropriate physical environment/space is provided, participation of volunteers or parents/caregivers is facilitated by school, teacher/EA willing to work with RD to include strategies in school setting
- adequate attention and behaviours for consultation
- consistent follow up demonstrated in program

Discharge criteria include one or more of the following
- student needs can be met by outpatient clinic/services
- student issues are strictly behavioural and no school board behavioural intervention is in place
- student condition stable with weight being monitored by family physician/clinic
- lack of student/family/school motivation or participation with program/recommendations
- student has achieved treatment goals
- student has strategies/program in place to be able to meet goals
- no practice/irregular attendance of student at sessions
- degree of progress does not warrant ongoing intervention
- student and/or family/caregiver do not feel need for treatment
- student no longer demonstrates need for service

*General Role of RD
Promote and/or Maintain Healthy growth related to nutritional recommended intake, changes with age, need for supplementation with feeds.

School Based Rehabilitation Services Guidelines –Occupational Therapy

Conditions/Service Need	Role of OT/Model of Service
Short Term Needs Student with a specific functional problem requiring focused, short term intervention in <u>one</u> of the following areas: - age/developmental school productivity issues - mobility issues - environmental adaptations/accessibility (equipment) - sensory processing issues - intervention is short term and specific in nature	In the form of clinical observations, interview of parents/caregivers/teacher or standardized assessments may include: - fine motor skills, gross motor skills, motor coordination, visual perceptual skills, sensory processing, activities of daily living, accessibility and mobility - intervention and/or instructional strategies defined and taught to school staff and parents/caregivers, program and resources provided to school staff and parents/caregivers - feedback to/from school staff/parents/caregivers - ongoing re-evaluation as needed to revise goals and intervention strategies

Moderate Term Needs Student with <u>one or more</u> of the following functional problems: ● age/developmental school productivity issues ● mobility issues ● environmental adaptations/accessibility (equipment) ● sensory processing issues ● intervention will have a rehabilitation focus	Assessment in the form of clinical observations, interview of parent/caregiver/teacher or standardized assessments may include: ● fine motor skills, gross motor skills, motor coordination, visual perceptual skills, sensory processing, activities of daily living, accessibility and mobility ● intervention and/or instructional strategies defined and taught to school staff and family/caregivers ● program and resources provided to school staff and parents/caregivers ● feedback to/from school staff/parents/caregivers ● ongoing re-evaluation as needed to revise goals and intervention strategies
Complex/Early Intervention Student with one or more of the following functional problems: ● physical disability affecting ability to function independently in school (safety, mobility, productivity), degenerative condition, chronic health condition, developmental disability ● intervention will focus on the establishment of optimal function in order to develop baseline for ongoing maintenance	Assessment in the form of clinical observations, interview of parents/caregivers/teacher or standardized assessments may include: ● fine motor skills, gross motor skills, motor coordination, visual perceptual skills, sensory processing, activities of daily living, accessibility and mobility ● intervention and/or instructional strategies defined and taught to school staff and parents/caregivers ● program and resources provided to school staff and parents/caregivers ● feedback to/from school staff/parents/caregivers ● ongoing re-evaluation as needed to revise goals and intervention strategies

School Based Rehabilitation Services Guidelines –Occupational Therapy

Conditions/Service Need	Role of OT/Model of Service
Complex/Long Term Needs Student with one or more of the following functional problems: ● physical disability affecting ability to function independently in school (safety, mobility, productivity), degenerative condition, chronic health condition, developmental disability ● intervention will focus on prevention of deterioration and maximizing/maintenance of function ● student experiencing developmental delay (global) or cognitive/physical disability may necessitate consultation throughout their school career ● situation may need annual review and upgrading of programming	Assessment in the form of clinical observations, interview of parents/caregivers/teacher or standardized assessments may include: ● fine motor skills, gross motor skills, motor coordination, visual perceptual skills, sensory processing, activities of daily living, accessibility and mobility ● intervention and/or instructional strategies defined and taught to school staff and parents/caregivers ● program and resources provided to school staff and parents/caregivers ● feedback to/from school staff/parents/caregivers ● if experiencing an episodic need for intense short term intervention student may receive additional visits For example: ● facilitation with transition within school system ● facilitation with transition to adult services ● intermittent difficulties associated with growth/equipment changes ● change in caregiver (school setting) ● supportive care needs ● sudden change in functional status ● ongoing re-evaluation as needed to revise goals and intervention strategies

Program Criteria: Occupational Therapy
- school support – appropriate physical environment/space is provided, participation of volunteers or parents/caregivers is facilitated by school, teacher/EA willing to work with therapist to include strategies in school setting
- motivation and consent of student/caregiver to participate
- adequate attention and behaviours for assessment/treatment sessions
- consistent follow up demonstrated in supplemental program/homework/exercises provided by OT
- students are not eligible for service if they have ONLY behaviour difficulties, visual perceptual problems, or learning disabilities

Discharge Criteria- include one or more of the following
- student has achieved treatment goals
- student has strategies /program in place to be able to meet goals
- lack of follow up in school or home program
- no practice/irregular attendance of student at sessions
- degree of progress does not warrant ongoing intervention

- student and/or family do not feel need for treatment
- student no longer demonstrates need for service

Service Model

Intervention may be direct, consultative, one to one or via workshop or educational presentation to caregivers/school staff.

School Based Rehabilitation Services Guidelines – Physical Therapy

Conditions/Service Need	Role of PT/Model of Service
Short Term ● physical challenges in the school setting including difficulties participating in gym class, safe mobility within the school/schoolyard, stairs ● non-deteriorating condition with minimal complications predicted ● acute cardiorespiratory issues	**Services include:** ● assess physical function and/or gross motor skills ● develop intervention strategies ● teach school staff, parents/caregivers to review/feedback/upgrading of intervention/adaptation strategies as needed ● evaluate safe implementation of program in school setting
Rehabilitation/Chronic ● student with a disability which impacts on functional abilities of mobilization, transfers, cardiorespiratory status, demonstrating potential for improvement ● pt intervention to maximize progression of skills and optimize functional status ● improve/Maintain mobility and orthopedic, gross motor and respiratory status ● intervention may vary in response to changing needs and readiness ● example: physical impairment limiting ambulation with potential to affect level of independent mobility (e.g.: Borderline ambulatory vs. wheelchair mobility) ● students may require additional visits post surgery/post botox	**Services include:** ● assessment of physical function, setting goals with students, school staff and family to maximize physical function in the school setting ● intervention strategies developed and taught to school staff and parents/caregivers ● prescription of equipment ● collaboration with school staff in development of IEP plan/goals ● ongoing evaluation of safe implementation of program in school setting ● ongoing re-evaluation as needed to progress goals and intervention strategies

Complex/Long Term Needs	Services include:
● student with a disability which impacts on functional abilities of mobilization, transfers and cardiorespiratory status ● pt intervention to maintain/delay deterioration of mobility, orthopedic, gross motor and respiratory status ● intervention may vary in response to changing needs and readiness	● assessment of physical status/function, setting goals with students, school staff and family to maintain physical function in the school setting ● intervention strategies developed and taught to school staff and parents/caregivers ● prescription of equipment ● collaboration with school staff in development of IEP plan/goals ● ongoing evaluation of safe implementation of program in school setting ● ongoing re-evaluation as needed to revise goals and intervention strategies

* All guidelines include assessment, conferencing, and consultation

Program Criteria Physical Therapy
- school support – appropriate physical environment/space is provided for gross motor activities, participation of volunteers or parents/caregivers is facilitated by school, teacher/EA willing to work with therapist to include strategies in school setting
- parents/caregivers involvement in physio program
- motivation and consent of student to participate
- adequate attention and behaviours for assessment/treatment sessions
- consistent follow up demonstrated in supplemental program/homework/exercises provided by PT
- service model is abilities based – based on goals of child, school and family – goals are task oriented
- an identified gross motor difficulty impacting on school participation and safety in the school setting

Discharge Criteria include one or more of the following
- student has achieved treatment goals
- student has strategies/program in place to be able to meet goals
- lack of follow up in school or home program
- no practice/irregular attendance of student at sessions
- degree of progress does not warrant ongoing intervention
- student and/or parents/caregivers do not feel need for treatment
- student no longer demonstrates need for service

Services
Intervention may be consultative, one to one or via workshop or educational presentation to family/caregivers/school staff.

School Based Rehabilitation Services Speech-Language Pathology Service Guidelines
CHEO School Based Rehabilitation Services (SBRS) provides speech therapy for children and youth with a health based need for speech services. School boards are responsible for providing these services to children/youth who have a language disorder. This is inclusive of private and home schools. School boards are also responsible for the treatment of mild articulation disorders. (Mild articulation = no processes involved OR 1-2 sound errors regardless

of age OR errors fall within the child's development range OR sound patterns associated with that of first language (ESL) OR W for R or Frontal Lisp, or lateral lisp on s, z only, tongue thrust).

Students who are identified with physical, neurological, and/or cognitive difficulties may have an impeded rate of progress. It is anticipated that therapeutic strategies will require more time. Student MUST meet eligibility criteria of continued measurable progress and consistent support from home and school must be evident.

Conditions/Service Need	Eligibility criteria	Role of SLP/Model of Service
Moderate to Severe Articulation/Phonological Disorder **Moderate** ● 3-6 sound errors are noted OR phonological processes (including atypical errors) may be involved AND errors noticeably reduce intelligibility (e.g. lateralization of most or all fricatives with significant negative effect on intelligibility) **Severe** ● more than 6 sound errors, processes involved, intelligibility is severely reduced	● must have SLP referral and assessment ● must have current SLP report (within last 12 months)	● direct treatment and/or consultative individually or in group ● consult as required ● provide home program ● education, consultation and training of client/parents/caregivers/school personnel ● clinic/workshop
Complex/Medically Fragile DE children only ● DE children ONLY where model is different & SLP is addressing language development and/or swallowing risks		● direct treatment and/or consultative individually or in group ● consult as required ● provide home program ● education, consultation and training of client/parents/caregivers/school personnel ● clinic/workshop

Conditions/Service Need	Eligibility criteria	Role of SLP/Model of Service
Motor Speech Disorder **Mild- Moderate** ● 3-6 sound errors, processes may be involved, errors are inconsistent over repeated trials, intelligibility is noticeably reduced **Severe** ● more than 6 sounds errors are noted, processes may be involved, errors are inconsistent over repeated trials, intelligibility is severely reduced **Profound** ● efforts to speak/vocalize but limited sound system ● oral motor difficulties must impact intelligibility or contribute to feeding and/or swallowing difficulties	● must have SLP referral and assessment ● must have current SLP report (within last 12 months) ● neurology report if available	● direct treatment and/or consultative individually or in group ● consult as required ● provide home program ● education, consultation and training of client/parents/caregivers/school personnel ● clinic/workshop
Fluency Disorder ● dysfluent in first language ● tension sSecondary behaviours – avoiding words/avoidance of situations ● effortful speech, struggle ● demonstration of social +/or vocational limitation(s) as result of fluency disorder	● must have SLP referral and assessment ● must have current SLP report (within last 12 months) ● client motivation – key with referral	● direct treatment and/or consultative individually or in group ● consult as required ● provide home program ● education, consultation and training of client/parents/caregivers/school personnel ● clinic/workshop

Conditions/Service Need	Eligibility criteria	Role of SLP/Model of Service
Voice/Resonance Disorder Vocal fold pathology identified by ENT resulting in poor voice quality including: ● rough ● hoarse ● whispery **Mild/Moderate** ● vocal production impacts on daily communication **Severe** ● vocal production is markedly affected Majority of communication may require non-verbal techniques ● atypical hypo or hyper nasality ● nasal air emission	● ENT report required ● eligibility for ongoing services – expectation of clinical changes in first 3 months – if not, service not continued and client referred for more appropriate intervention ● report from cleft palate team, if involved	● direct treatment and/or consultative individually or in group ● consult as required ● provide home program ● education, consultation and training of client/parents/caregivers/school personnel ● clinic/workshop
Multiple Needs ● experiencing moderate to severe difficulties in more than one treatment area/category of speech remediation including: articulation, oral motor, fluency and voice difficulties	● must have SLP referral and assessment ● must have current SLP report (within last 12 months)	● direct treatment and/or consultative individually or in group ● consult as required ● provide home program ● education, consultation and training of client/parents/caregivers/school personnel ● clinic/workshop
Alternative and Augmentative Communication ● resource to school on short term basis within scope of practise and service mandate; transition to school board staff for ongoing services	● if AAC device is primary method of communication, school board responsibility ● if secondary device to augment speech production, shared mandate of School board and SBRS	● direct treatment and/or consultative individually or in group ● consult as required ● provide home program ● education, consultation and training of client/parents/caregivers/school personnel ● clinic/workshop

Conditions/Service Need	Eligibility criteria	Role of SLP/Model of Service
Assessment and Discharge	● following assessment client does not meet eligibility criteria (may be due to improvements while waiting for service; may have been inappropriately referred) SLP will complete assess/discharge report	● no service provided

NOTE: The **Referral for Same Need** category has been eliminated. Please reassess the child and put them into the most appropriate category above.

CHEO Program Criteria: Speech Language Pathology Service
- the student must display – appropriate motivation, attention, language, behaviour and cognitive ability to participate in an individual speech therapy session of a minimum of 30 minutes in length
- the SLP assessment report accompanying the referral to include child's status of those components
- the student must display – language skills that are equal to or greater than demonstrated speech skills
- students who require significant language stimulation will be discharged back to the care of the school board speech language pathologist
- SLP report including an assessment on language skills (within past year) <u>where there are identified concerns</u>, from referring agency SLP/school board SLP/private SLP *Exception*: a child with diagnosed developmental delays, a report within the last two years will be accepted if accompanied with a statement by the referring SLP regarding the validity of the report
- referral must be initiated by an SLP; if no identified concerns then a <u>statement</u> on language skills (within past year) is required from SLP
- stimulability for speech sounds
- school support – appropriate physical environment/space is provided; participation of volunteers or parents/caregivers is facilitated by school; teacher/EA willing to work with therapist to include strategies in class work
- parents/caregivers to attend minimum of one session
- motivation and consent of student to participate
- adequate attention and behaviours for assessment/treatment sessions
- consistent follow up demonstrated in supplemental program/homework provided by SLP

Discharge Criteria include one or more of the following
- student has achieved treatment goals
- student has strategies /program in place to be able to meet goals
- lack of follow up in school or home program
- no practice/irregular attendance of client at sessions
- student meets criteria for mild articulation
- degree of progress does not warrant ongoing intervention
- student and/or family/caregiver do not feel need for treatment
- student no longer demonstrates need for service

Categories and Definitions of Exceptionalities

Purpose of the Standard

To provide information on the categories and definitions of exceptionalities available to the public, including parents/caregivers and community associations.

Some students have special needs that may require additional support beyond what is provided through regular instructional and assessment practices. Students who have behavioural, communication, intellectual, physical or multiple exceptionalities, may require special education programs and /or services to benefit fully from their school experience. These may take the form of accommodations such as specific teaching strategies, preferential seating, and assistive technology and/or modifications (i.e., changes in grade level expectations in a particular course or subject). Such students may be formally identified by an Identification, Placement and Review Committee (IPRC) as "exceptional pupils".

According to the Ministry of Education:

An **exceptional pupil** is a student who has behavioural, communicational, intellectual, physical or multiple exceptionalities that require them to have a special education program or service.

A **special education program** is defined as an educational program that is based on and modified by the results of continuous assessment and evaluation and that includes a plan containing specific objectives and an outline of educational services that meets the needs of the exceptional pupil.

Special education services are defined as facilities and resources, including support personnel and equipment necessary for developing and implementing a special education program.

All decisions about exceptionality and student placements are made through the IPRC process. The Ministry of Education sets out categories and definitions of exceptionalities that must be used by school boards when determining a student is "exceptional". If a student is deemed to be exceptional, the IPRC will decide the appropriate "placement" for the student, using criteria developed by the OCDSB as well as taking into account parental preference. The goal of the IPRC is to determine the most appropriate learning environment to maximize the student's potential. For more information about the IPRC process or special education placements offered in the OCDSB, please refer to these sections within this document.

The chart of student exceptionalities below is set out by the Ministry of Education and is in alignment with the Education Act. It is organized by exceptionality category, specific exceptionality identification, and specific exceptionality definition. An identification of exceptionality is not the same as a diagnosis provided by a psychologist or medical professional.

Behavioural

Exceptionality	Definition
Behaviour	A learning disorder characterized by specific behaviour problems over such a period of time, and to such a marked degree, and of such a nature, as to adversely affect educational performance and that may be accompanied by one or more of the following: ● an inability to build or to maintain interpersonal relationships ● excessive fears or anxieties ● a tendency to compulsive reaction ● an inability to learn that cannot be traced to intellectual, sensory, or other health factors, or any combination thereof

Communicational

Exceptionality	Definition
Autism	A severe learning disorder that is characterized by: ● disturbances in rate of educational development; ability to relate to the environment; mobility; perception, speech, and language ● lack of the representational symbolic behaviour that precedes language
Deaf and Hard-of-Hearing	An impairment characterized by: ● deficits in language and speech development because of a diminished or non-existent auditory response to sound
Language Impairment	A learning disorder characterized by an impairment in comprehension and/or the use of verbal communication or the written or other symbol system of communication, which may be associated with neurological, psychological, physical, or sensory factors, and which may: ● involve one or more of the form, content, and function of language in communication ● include one or more of: language delay; dysfluency; voice and articulation development, which may or may not be organically or functionally based
Speech Impairment	A disorder in language formulation that may be associated with neurological, psychological, physical, or sensory factors; that involves perceptual motor aspects of transmitting oral messages; and that may be characterized by impairment in articulation, rhythm, and stress

Communicational *(Continued)*

Exceptionality	Definition
Learning Disability	One of a number of neurodevelopmental disorders that persistently and significantly has an impact on the ability to learn and use academic and other skills and that: ● affects the ability to perceive or process verbal or non-verbal information in an effective and accurate manner in students who have assessed intellectual abilities that are at least in the average range ● results in (a) academic underachievement that is inconsistent with the intellectual abilities of the student (which are at least in the average range), and/or (b) academic achievement that can be maintained by the student only with extremely high levels of effort and/or with additional support ● results in difficulties in the development and use of skills in one or more of the following areas: reading, writing, mathematics, and work habits and learning skills ● may typically be associated with difficulties in one or more cognitive processes, such as phonological processing; memory and attention; processing speed; perceptual-motor processing; visual-spatial processing; executive functions (e.g., self-regulation of behaviour and emotions, planning, organizing of thoughts and activities, prioritizing, decision making) ● may be associated with difficulties in social interaction (e.g., difficulty in understanding social norms or the point of view of others); with various other conditions or disorders, diagnosed or undiagnosed; or with other exceptionalities ● is not the result of a lack of acuity in hearing and/or vision that has not been corrected; intellectual disabilities; socio-economic factors; cultural differences; lack of proficiency in the language of instruction; lack of motivation or effort; gaps in school attendance or inadequate opportunity to benefit from instruction

Intellectual

Exceptionality	Definition
Giftedness	An unusually advanced degree of general intellectual ability that requires differentiated learning experiences of a depth and breadth beyond those normally provided in the regular school program to satisfy the level of educational potential indicated
Mild Intellectual Disability	A learning disorder characterized by: ● an ability to profit educationally within a regular class with the aid of considerable curriculum modification and support services ● an inability to profit educationally within a regular class because of slow intellectual development ● a potential for academic learning, independent social adjustment, and economic self-support
Developmental Disability	A severe learning disorder characterized by: ● an inability to profit from a special education program for students with mild intellectual disabilities because of slow intellectual development ● an ability to profit from a special education program that is designed to accommodate slow intellectual development ● a limited potential for academic learning, independent social adjustment, and economic self-support

Physical

Exceptionality	Definition
Physical Disability	A condition of such severe physical limitation or deficiency as to require special assistance in learning situations to provide the opportunity for educational achievement equivalent to that of students without exceptionalities who are of the same age or development level
Blind and Low Vision	A condition of partial or total impairment of sight or vision that even with correction affects educational performance adversely

Multiple

Exceptionality	Definition
Multiple Exceptionalities	A combination of learning or other disorders, impairments, or physical disabilities that is of such a nature as to require, for educational achievement, the services of one or more teachers holding qualifications in special education and the provision of support services appropriate for such disorders, impairments, or disabilities

Special Education Placements Provided by the OCDSB

Purpose of the Standard

To provide the Ministry and the public with details of the range of placements provided by the Board, and to inform the public that placement of a student in a regular class is the first option considered by an IPRC.

Learning For All, Kindergarten to Grade 12
"*Learning for All, K-12*" describes the educational approaches that are based on one of the most important findings of educational research since 2000 – namely, that all students learn best when instruction, resources, and the learning environment are well suited to their particular strengths, interests, needs and stage of readiness." (2013, p.8)

The OCDSB offers a variety of placement options from least restrictive to most supportive. *Regulation 181/98, Section 17* made under the *Education Act* states:

(1) When making a placement decision....(the IPRC) shall, before considering the option of placement in a special education class, consider whether placement in a regular class, with appropriate special education services,
    (a) would meet the pupil's needs
    (b) is consistent with parents/caregivers preferences

(2) if, after considering all of the information obtained by it or submitted to it under Section 15 that it considers relevant, the committee is satisfied that placement in a regular class would meet the pupil's needs and is consistent with parental preferences, the committee shall decide in favour of placement in a regular class.

A regular class placement is considered the first option when it meets the student's needs and is consistent with parental preferences. When a student is placed in a SPC, integration continues to be maximized to the greatest degree possible based on individual needs. Students can be integrated into the regular classroom in a variety of ways. These ways include, but are not limited to, the following:

- participation in activities and subjects in areas of strength
- participation in any subjects such as physical education, art, music and drama
- participation in school based activities
- participation in social activities
- peer helper initiatives
- reading buddies
- differentiated/modified curricular expectations and evaluation
- accommodations (e.g., preferential seating, assistive technology)

For the 2024-2025 school year, the OCDSB has continued to offer both in-person and virtual learning opportunities. The overview of related information can be found in *Policy/Program*

Memorandum No. 164. OCDSB special education learners in the regular classroom were offered either in-person learning, or the option of attending the Ottawa-Carleton Virtual (OCV) campuses. Individualized support was provided to special needs students in their respective setting and based on their IEP. SPCs were only offered in person in the 2024-2025 school year.

Student Program Placement Options (Ministry of Education)

Regular class with indirect support
The student is placed in a regular class for the entire day, and the teacher receives specialized consultative services.

Regular class with resource assistance
The student is placed in a regular class for most or all of the day and receives specialized instruction, individually or in a small group, within the regular classroom from a qualified special education teacher.

Regular class with withdrawal assistance
The student is placed in the regular class and receives instruction outside of the classroom for less than 50 per cent of the school day, from a qualified special education teacher.

Special education class with partial integration
The student is placed by the IPRC in a special education class where the student–teacher ratio conforms to *Regulation 298, section 31*, for at least 50 per cent of the school day, but is integrated with a regular class for at least one instructional period daily.

Special education class full time
A student is placed by the IPRC in a special education class, where the student–teacher ratio conforms to *Regulation 298*, section 31, for the entire school day.

Referral Process for Specialized Program Classes
The parents/caregivers of the student must be consulted and included in the preparation of a referral to a SPC. The referral process is a collaborative process between the student's parents/caregivers and the home school. Effective practice for a referral to a SPC includes a parent being well informed of the placement, the pathway outcomes for students when they enter a SPC, and its criteria prior to supporting the completion of the application. Schools submit referrals and all required documentation to a central referral committee:

- a central referral committee consisting of, as appropriate, LSC, Multi-Disciplinary LSS personnel, and principals review each referral and determine if criteria for the specialized program class has been met
- if there is space available the central referral review committee offers a placement, the sending school then reviews the offer as a part of the IPRC process
- the principal of the sending school contacts parents/caregivers to inform them of the offer and requires a response within 48 hours
- the sending school then advises the central review committee of the parents/caregivers' response and a space is held for that student in the SPC
- the principal of the sending school conducts an IPRC. If there are extenuating circumstances due to year-end timelines, the IPRC may be convened at the receiving school in early September.

- the sending school completes the specialized transportation forms as needed for the student
- all specialized class placements are age/grade appropriate only

Category: Behaviour

Exceptionality: Behaviour

Ministry Definition
A learning disorder characterized by specific behaviour problems over such a period of time, and to such a marked degree, and of such a nature, as to adversely affect educational performance; and that may be accompanied by one or more of the following:
- an inability to build or to maintain interpersonal relationships
- excessive fears or anxieties
- a tendency to compulsive reaction
- an inability to learn that cannot be traced to intellectual, sensory, or other health factors, or any combination thereof

Special Education Class for Behaviour (Behaviour Intervention Program)

Placements
- Behaviour Intervention Programs (BIP) at the following levels: primary, junior, intermediate, and senior   - up to eight students per class
Placement Criteria
- typically exhibits many or all of the following behaviours: verbal aggression, physical aggression, a profound inability to build or maintain interpersonal relationships, excessive anger, severe non-compliance, extreme lack of impulse control, extreme low self-esteem, extreme defiant behavior, extreme difficulty coping in the community school, an inability to learn that cannot be traced to intellectual, sensory, or other health factors   - accommodations for learning are essential in order to access the curriculum
Criteria for Change in Placement
- the behaviour is no longer functioning as the most significant determining influence on the student's academic success or social adjustment in school   - the social and/or academic needs can be met more successfully within a different specialized program placement   - has been integrated and has demonstrated the ability to succeed in a regular class with/without support from LRT and/or LST   - no longer benefiting or requiring a specialized placement   - evidence of ongoing successful integration
Available Resources
- one teacher with special education qualifications (Parts I and II)   - educational assistant   - LSS personnel provide assessment and consultative services to the special education teacher

Program
- focus of the program is to provide a structured learning environment and an opportunity to develop appropriate social skills
- program allows for integration into regular classrooms and school activities when possible
- an IEP containing specific expectations with a focus on behaviour/self regulation is designed for each student according to learning needs and abilities. Academic expectations will be created if required
- this plan is based on, and modified by, the results of continuous assessment and evaluation and is shared with parents/caregivers on an ongoing basis
- the progress of a student who has been identified as an exceptional pupil and has a placement is formally reviewed on an annual basis through the IPRC process

Evaluation Methods
- assessment and evaluation are ongoing throughout the year
- student progress is formally reported as per the reporting structure of the OCDSB on report cards and IEPs

Alternative Placements
The school team will meet with the parents/caregivers to discuss alternative placements if necessary. Placements may include the following:
- other special education placement options if appropriate
- Education and Community Partnership Program (ECPP)
- regular classroom with monitoring from the LST and/or LRT
- regular classroom with support from the LST and/or the LRT

Category: Communication

Exceptionality: Autism

Ministry Definition
A severe learning disorder that is characterized by:

Disturbance in:
- rate of educational development
- ability to relate to the environment
- mobility
- perception, speech, and language

Lack of the representational symbolic behaviour that precedes language

Special Education Classes for Autism (ASDP) and Autism Credit Support Program (ASDCSP)

Placements
● specialized classes at the following levels: kindergarten, primary, junior, intermediate, and senior ● 6 students per class*
Placement Criteria
● a diagnosis of Autism Spectrum Disorder as specified by DSM-V ● documented evidence of impaired communication, social skills, and an uneven learning profile
Criteria for Change in Placement
● has social and/or academic needs which can be met more successfully within another placement ● no longer benefiting from specialized placement ● evidence of ongoing successful integration
Available Resources
● one teacher with special education qualifications (Parts I and II) ● educational assistants ● LSS personnel provide assessment and consultative services to the special education teacher

Note: There are 10 students in each of the Autism Credit Support Program (ASDCSP) classes. The allocation of educational assistants is determined by student needs in each of the ASDCSP classes.

Program
- emphasis is on functional literacy and numeracy skills, communication, social, life skills, and age-appropriate behaviour
- goals are specific, measurable, attainable, relevant, timely, and chosen from the following domains: behaviour, communication, life skills (self-help, vocational, and work experience), academics, gross and fine motor skills, community living, and integration
- programming is based on the expectations outlined in the IEP which is coordinated by the classroom teacher in consultation with the assigned speech-language pathologist and psychologist
- it is expected that students will integrate into the mainstream to the greatest degree possible
- the progress of a student who has been identified as an exceptional pupil and has a placement is formally reviewed on an annual basis through the IPRC process

Evaluation Methods
- assessment and evaluation are ongoing throughout the year
- student progress is formally reported as per the reporting structure of the OCDSB on report cards and IEPs

Alternative Placements
The school team will meet with the parents/caregivers to discuss alternative placements if necessary. Placements may include the following:

- other special education placement options, if appropriate
- regular classroom with monitoring from the LST/LRT
- regular classroom with support from the LST/LRT

Exceptionality: Deaf and Hard of Hearing

Ministry Definition
An impairment characterized by deficits in language and speech development because of a diminished or non-existent auditory response to sound.

Special Education Class for Deaf (D/HH)

Placement (Deaf)
- specialized program with a Specialist Teacher of the Deaf/Hard of Hearing   10 students per class
Placement Criteria
- documented hearing loss   - method of communication is through sign language (American Sign Language)
Criteria for Change in Placement
- change in hearing loss or performance   - change in method of communication
Available Resources
- equipment, as needed, including maintenance   - teacher with qualifications in Deaf Education   - educational assistant allocated based on students' needs   - LSS personnel provide assessment and consultative services to the special education teacher   - ASL interpreter

Program
- specialized Classes for the D/HH use sign language (ASL) and English to deliver the Ontario Curriculum, with modifications as required
- one class at the elementary level for JK to grade 8 students and one at the secondary level for students in grade 9 to 12
- includes the development of receptive and expressive language skills. For most students, integration into regular classrooms and school activities is considered to be an essential part of this program
- an IEP is developed for each student with specific learning expectations. This plan, which is developed collaboratively with parents/caregivers, is based on, and modified by, the results of continuous assessment
- the progress of a student who has been identified as an exceptional pupil and has a placement is formally reviewed on an annual basis through the IPRC process

Evaluation Methods
- assessment and evaluation are ongoing throughout the year and may include informal checklists, standardized testing, teacher observation, and language checklists

- student progress is formally reported as per the reporting structure of the OCDSB on report cards and IEPs

Alternative Placements

The school team will meet with the parents/caregivers to discuss alternative placements if necessary. Placements may include provincial demonstration schools for the deaf, schools for the blind and deaf–blind, and Francophone schools for the deaf, blind, and deaf–blind.

Placement (Hard of Hearing)
● regular classroom with monitoring/direct support from the IT/D/HH
Admissions Criteria
● hearing loss
Criteria for Change in Placement
● change in hearing loss or performance ● change in method of communication
Available Resources
● FM system and or other equipment, as needed, including maintenance ● teacher with qualifications in Deaf Education ● educational assistant allocated based on students' needs ● LSS personnel provide assessment and consultative services to the special education teacher

Program
- an IEP is developed for each student with specific learning expectations. This plan, which is developed collaboratively with parents/caregivers, is based on, and modified by, the results of continuous assessment
- the progress of a student who has been identified as an exceptional pupil and has a placement is formally reviewed on an annual basis through the IPRC process

Evaluation Methods
- assessment and evaluation are ongoing throughout the year and may include informal checklists, standardized testing, teacher observation, and language checklists
- student progress is formally reported as per the reporting structure of the OCDSB on report cards and IEPs

Alternative Placements

The school team will meet with the parents/caregivers to discuss alternative placements if necessary. Placements may include an OCDSB D/HH class, provincial demonstration schools for the deaf, schools for the blind and deaf–blind, and Francophone schools for the deaf, blind, and deaf–blind.

Exceptionality: Language Impairment

Ministry Definition
A learning disorder characterized by impairment in comprehension and/or use of verbal communication or the written or other symbol system of communication, which may be associated with neurological, psychological, physical, or sensory factors, and which may:

Involve one or more of the form, content, and function of language in communication or include one or more of the following:
- language delay
- dysfluency
- voice and articulation development, which may or may not be organically or functionally based

Special Education Class for Language Learning Disabilities (LLD)

Placements
- specialized classes at the following levels: primary and junior   - up to 10 students per primary class   - up to 12 students per junior class
Placement Criteria
- exhibits severe language learning difficulties on a speech/language assessment   - average to above-average intellectual ability as measured on a psychological assessment   - language learning disability or mixed receptive-expressive language disorder as appropriate to age and grade level
Criteria for Change in Placement
- mildly impaired language functioning overall (one or more areas of language may still indicate moderate impairments) on a speech/language assessment completed within the last 12 months   - academic performance is within one grade level of the student's integrated class placement   - has academic and/or social needs that could be met more successfully within a different special-class setting   - has the ability to succeed in a regular class with LST/LRT support   - no longer benefiting from specialized placement   - evidence of ongoing successful integration
Available Resources
- one teacher with special education qualifications (Parts I and II)   - LSS personnel provide assessment and consultative services to the special education teacher   - speech-language pathologists provide additional programming support

Program
- the focus of the Language Learning Disability Program is to provide the appropriate learning environment that will facilitate the development of the student's oral and written language and skills to enable academic achievement
- programs are equipped with special education and language development materials
- an IEP containing specific expectations is designed for each student according to individual learning needs and abilities. This plan, which is shared with parents/caregivers, is based on, and modified by, the results of continuous assessment and evaluation
- it allows for integration into regular classrooms and/or school activities
- the progress of a student who has been identified as an exceptional pupil and has a placement is formally reviewed on an annual basis through the IPRC process

Evaluation Methods
- assessment and evaluation are ongoing throughout the year
- student progress is formally reported as per the reporting structure of the OCDSB on report cards and IEP and LSS reports

Alternative Placements
The school team will meet with the parents/caregivers to discuss alternative placements if necessary. Placements may include the following:
- other special education placement options if appropriate
- regular classroom with monitoring from the LST/LRT
- regular classroom with support from the LST/LRT

Exceptionality: Speech Impairment

Ministry Definition
A disorder in language formulation that may be associated with neurological, psychological, physical, or sensory factors that involves perceptual motor aspects of transmitting oral messages and that may be characterized by impairment in articulation, rhythm, and stress.

Placements
● regular classroom with monitoring from the LST/LRT
Placement Criteria
● mild to moderate articulation problems ● moderate to severe articulation problems ● cleft palate ● voice disorder, fluency disorder, phonology disorder
Criteria for Change in Placement
● consultation ● screening ● formal/informal testing ● CHEO School Based Rehabilitation Services discharge their cases when they reach the mild to moderate level. They may refer to the Parent Articulation Training Program or private services as appropriate

Available Resources
● classroom teacher ● speech-language pathologist ● CHEO School-based Rehabilitation Services if applicable ● parent(s)/ caregiver(s), and volunteers ● Parent Articulation Training Program (PATP) ● LSS personnel provide assessment and consultative services to the special education teacher

Exceptionality: Learning Disability (LD)

Ministry Definition

One of a number of neurodevelopmental disorders that persistently and significantly has an impact on the ability to learn and use academic and other skills and that affects the ability to perceive or process verbal or non-verbal information in an effective and accurate manner in students who have assessed intellectual abilities that are at least in the average range. Results in:

● academic underachievement that is inconsistent with the intellectual abilities of the student (which are at least in the average range)
● academic achievement that can be maintained by the student only with extremely high levels of effort and/or with additional support
    ○ results in difficulties in the development and use of skills in one or more of the following areas: reading, writing, mathematics, and work habits and learning skills
    ○ may typically be associated with difficulties in one or more cognitive processes, such as phonological processing, memory and attention, processing speed perceptual-motor processing, visual-spatial processing, executive functions (e.g., self-regulation of behaviour and emotions, planning, organizing of thoughts and activities, prioritizing, decision making)
    ○ may be associated with difficulties in social interaction (e.g., difficulty in understanding social norms or the point of view of others), with various other conditions or disorders, diagnosed or undiagnosed or with other exceptionalities
    ○ is not the result of a lack of acuity in hearing and/or vision that has not been corrected, intellectual disabilities, socio-economic factors, cultural difference,; lack of proficiency in the language of instruction, lack of motivation or effort, gaps in school attendance or inadequate opportunity to benefit from instruction
    ○ is not the result of a lack of acuity in hearing and/or vision that has not been corrected, intellectual disabilities; socio-economic factors, cultural differences, lack of proficiency in the language of instruction, lack of motivation or effort, gaps in school attendance or inadequate opportunity to benefit from instruction

Special Education Class for Learning Disabilities (Elementary LD-SIP; Secondary LDP)

Placements
- specialized classes at the following levels: junior, intermediate, and senior   - up to eight students per class
Placement Criteria
- evidence of significant learning difficulties with impairment in reading, and/or writing, and/or mathematics which has not responded to targeted interventions   - evidence of cognitive strength   - average (greater than the 25th percentile) intellectual ability as measured on a psychological assessment   - requires intensive instructional support   - has severe to profound difficulty in learning and in processing information   **Secondary**: requires accommodations and/or modifications in academic areas that rely on reading, and/or writing, and/or written expression and/or mathematics. Is able to work towards credit bearing, grade level curriculum expectations when using individualized accommodations.
Criteria for Change in Placement
- current assessments indicate student no longer meets learning disabilities program admission criteria   - has academic (as demonstrated by current assessment) and/or social needs that could be met more successfully within a different special class setting, or a provincial school or CTCC placement   - has an ability to succeed in a regular class with LST/ LRT support   - no longer benefiting from specialized placement   - evidence of ongoing successful integration
Available Resources
- one teacher with special education qualifications (Parts I and II)   - LSS personnel provide assessment and consultative services to the special education teacher

Program
- the focus of the program focuses on is to develop academics (numeracy and literacy), use of assistive technology, executive functioning, and social-emotional learning.academic,, executive functioning, social-emotional, and self-advocacy skills
- intensive instructional support is provided for language and mathematics in the junior and intermediate programs
- credit courses are offered through the secondary program
- an IEP containing specific expectations is designed for each student according to learning strengths and needs. This plan is based on, and modified by, the results of continuous assessment and evaluation. The IEP is developed collaboratively by school staff with parents/caregivers
- the progress of a formally identified exceptional student is reviewed on an annual basis through the IPRC process
- integration into regular/larger classrooms and school activities is considered to be an essential part of this program

Evaluation Methods
- assessment and evaluation are ongoing throughout the year
- student progress is formally reported as per the reporting structure of the OCDSB on report cards and IEP

Alternative Placements

The school team will meet with the parents/caregivers to discuss alternative placements if necessary. Placements may include the following:
- other special education placement options if appropriate
- provincial demonstration schools (English and French) for students with severe learning disabilities
- regular classroom with monitoring from the LST/LRT
- regular classroom with support from the LST/LRT

Exceptionality: Giftedness

Ministry Definition

An unusually advanced degree of general intellectual ability that requires differentiated learning experiences of a depth and breadth beyond those normally provided in the regular school program to satisfy the level of educational potential indicated.

Special Education Class for Gifted Students (Gifted)

Placements
- specialized classes at the following levels: primary, junior, intermediate and senior   - up to 20 students per class grades 1-3   - up to 25 students per class in grades 4-8   - up to 28 students per class in grades 9-12
Placement Criteria
very superior intellectual ability as measured on a formalized assessment and meets the OCDSB criteria for gifted: primary - 99.6th percentile; junior /intermediate/secondary- 98th percentile
Criteria for Change in Placement
- has academic and/or social needs that could be met more successfully within a different classroom setting   - no longer benefiting or requiring a specialized placement   - evidence of ongoing successful integration
Available Resources
- one teacher with special education qualifications (Part I)   - LSS personnel provide assessment and consultative services to the special education teacher

Program
- all students work towards the grade expectations outlined in the Ontario curriculum. The aim of the gifted program is to provide enrichment rather than acceleration
- students have the ability to work through the curriculum at a faster rate, thus allowing more time to study the topics in greater depth
- the program is designed to encourage problem solving, working cooperatively, and self and peer evaluation based on criteria determined by the teacher and students
- application of learning is emphasized after students have demonstrated mastery of basic skills
- an open-ended curriculum allows students to explore areas of interest and incorporate creative talents into their learning
- an IEP containing specific expectations is designed for each student according to learning needs and abilities. This plan is based on, and modified by, the results of continuous assessment and evaluation. The IEP is developed collaboratively by school staff with parents/caregivers
- the progress of a student formally identified as exceptional is reviewed on an annual basis through the IPRC process

Evaluation Methods
- assessment and evaluation are ongoing throughout the year
- student progress is formally reported as per the reporting structure of the OCDSB on report cards and IEP

Alternative Placements
The school team will meet with the parents/caregivers to discuss alternative placements if necessary. Placements may include the following:
- other special education placement options if appropriate
- regular classroom with monitoring from the LST/LRT
- regular classroom with support from the LST/LRT

Exceptionality: Mild Intellectual Disability

Ministry Definition
A learning disorder characterized by:
- an ability to profit educationally within a regular class with the aid of considerable curriculum modification and supportive service
- an inability to profit educationally within a regular class because of slow intellectual development
- a potential for academic learning, independent social adjustment, and economic self-support

Special Education Class for students with Primary Special Needs (PSN)

Placements
● specialized classes at primary level ● up to 10 students per class
Placement Criteria
● need for one or more years in an intensive support program ● scores significantly below the average range, but above the developmentally ● in the age-equiv. range of grade 1 to 3
Admissions Criteria
● disabled range on a standardized individual psychological test of intellectual ability ● significant developmental delays in two or more of the following areas: intellectual, academic and social/emotional development, language, physical (fine and gross motor)
Criteria for Change in Placement
● does not require the same degree of specialized programming ● has the ability to succeed in a regular class with LST/LRT support and appropriate modifications and accommodations ● on-going assessment determines that a different placement could better meet the student's needs ● no longer benefiting from specialized placement ● evidence of ongoing successful integration
Available Resources
● one teacher with special education qualifications (Part I and Part II) ● educational assistant ● LSS personnel provide assessment and consultative services to the special education teacher

Program
- the primary special needs program provides opportunities for each student to progress in all relevant areas of development
- the focus of the program is to develop academic, communication and social/emotional skills
- an IEP containing specific expectations is designed for each student according to learning needs and abilities. This plan is based on, and modified by, the results of continuous formal and informal assessment
- the progress of a formally identified student is reviewed on an annual basis through the IPRC process
- for most students, integration into regular classrooms and school activities is considered to be an essential part of this program

Evaluation Methods
- assessment and evaluation are ongoing throughout the year
- student progress is formally reported as per the reporting structure of the OCDSB on report cards and IEP

Alternative Placements

The school team will meet with the parents/caregivers to discuss alternative placements if necessary. Placements may include the following:

- other special education placement options if appropriate
- regular classroom with monitoring from the LST/LRT
- regular classroom with support from the LST/LRT

Special Education Class for General Learning Program (GLP)

Placements
● specialized classes at the following levels: junior, intermediate and senior ● up to 16 students per class
Placement Criteria
● scores significantly below the average range, but above the developmentally disabled range on a standardized individual psychological test of intellectual ability ● significant delays in academic progress ● evidence of delays in social/emotional development ● in the age-equivalent range of grade 4 to secondary
Criteria for Change in Placement
● does not require the same degree of alternative programming ● has academic and/or social needs that could be met more successfully within a different special class setting ● has the ability to succeed in a regular class with LST/LRT support and with appropriate accommodations and modifications
Criteria for Change in Placement
● no longer benefiting from specialized placement ● evidence of ongoing successful integration
Available Resources
● one teacher with special education qualifications (Part I and Part II) ● one educational assistant per class ● LSS personnel provide assessment and consultative services to the special education teacher

Program

- the focus of the program is to develop academic, communication and social/emotional/life skills
- an IEP containing specific expectations is designed for each student according to the learning needs and abilities. This plan, developed collaboratively with parents/caregivers, is based on and modified by results of continuous assessment and evaluation
- the program allows for integration into regular classrooms and/or school activities
- curriculum is modified to meet the individual needs of students
- it is expected that students will integrate into the mainstream to the greatest degree possible
- the progress of a formally identified student is reviewed on an annual basis through the IPRC process

Evaluation Methods
- assessment and evaluation are ongoing throughout the year
- student progress is formally reported as per the reporting structure of the OCDSB on report cards and IEP

Alternative Placements
The school team will meet with the parents/caregivers to discuss alternative placements if necessary. Placements may include the following:
- other special education placement options if appropriate
- regular classroom with monitoring from the LST/LRT
- regular classroom with support from the LST/LRT

Special Education Class for Students with Mild Intellectual Disabilities (MID) or Developmental Disabilities (Storefront Program)

Placements
- system-based Storefront Program for students with special education needs aged 18–21 years of age with MID or a developmental disability   - up to twelve students
Placement Criteria
students must have supporting documentation which will include: written recommendation of the sending school/program, completed transition skills checklist, and written evaluations regarding previous successful work experience
Criteria for Change in Placement
- ends the year in which the student reaches the age of 21   - has social and/or academic needs which can be met more successfully within another placement   - no longer benefiting from specialized placement   - evidence of on-going successful integration
Available Resources
- one teacher with special education qualifications (Part I)   - one educational assistant is assigned to the class as a job coach   - LSS personnel provide assessment and consultative services to the special education teacher

Program
Upon completion of the program, it is hoped that students will be prepared for paid work or a community placement with a minimum of supervision.
- the students work in the community five mornings per week, 2.5 hours daily, for seven to eight weeks
- as part of the Storefront program, students will participate in a variety of work-experience placements
- the life skills component of the program is delivered in the afternoons
- an IEP containing specific expectations is designed for each student according to learning needs and abilities. This plan is based on, and modified by, the results of continuous assessment and evaluation
- the progress of a formally identified student is reviewed on an annual basis through the IPRC process

Evaluation Methods
- assessment and evaluation are ongoing throughout the year
- student progress is formally reported as per the reporting structure of the OCDSB on report cards and IEP

Alternative Placements
The school team will meet with the parents/caregivers to discuss alternative placements if necessary. Placements may include the following:
- other special education placement options if appropriate
- regular classroom with monitoring from the LST
- regular classroom with support from the LST

Exceptionality: Developmental Disability

Ministry Definition
A severe learning disorder characterized by:
- an inability to profit from a special education program for students with mild intellectual disabilities because of slow intellectual development
- an ability to profit from a special education program that is designed to accommodate slow intellectual development
- a limited potential for academic learning, independent social adjustment, and economic self-support

Special Education Class for Students with Developmental Disabilities (Semi-Integrated) (DDP)

Placements
- semi-integrated specialized classes at the following levels: primary, junior intermediate, and senior   - up to 10 students per class
Placement Criteria
- moderate to severe delays in intellectual ability as measured on a psychological assessment   - serious delays in academic progress   - moderate to severe delays in adaptive functioning   - be able to profit educationally, socially, and emotionally from a semi-integrated class in a regular school, with opportunities for appropriate supported integration   - be able to take care of basic personal needs, with a minimum of additional support
Criteria for Change in Placement
- has social and/or academic needs which can be met more successfully within another placement   - no longer benefiting from specialized placement   - evidence of on-going successful integration
Available Resources
- one teacher with special education qualifications (Part I)   - educational assistants   - LSS personnel provides assessment and consultative services to the special education teacher

Program
- programming in a specialized classroom offers opportunities to integrate with age-appropriate peers
- the focus of the program is to develop basic life skills along with a functional academic skills component
- the curriculum is modified, and/or alternative curriculum expectations are provided, to meet the individual needs of students
- an IEP containing specific expectations is designed collaboratively for each student according to learning needs and abilities. The IEP is based on, and modified by, the results of continuous assessment and evaluation
- the IEP includes a transition plan and should include work experience opportunities wherever possible

Evaluation Methods
- assessment and evaluation are ongoing throughout the year
- student progress is formally reported as per the reporting structure of the OCDSB on report cards and/or IEP

Special Education Class for students with Developmental Disabilities (Specialized Schools)

Placements
● specialized schools with classes at the following levels: kindergarten, primary, junior, intermediate and senior ● up to eight students per class
Placement Criteria
● moderate to severe delays in intellectual ability as measured on a psychological assessment ● serious delays in academic progress ● moderate to severe delays in adaptive functioning
Criteria for Change in Placement
● has social and/or academic needs which can be met more successfully within another placement ● no longer benefiting from specialized placement
Available Resources
● one teacher with special education qualifications (Part I) ● educational assistants ● LSS personnel provide assessment and consultative services to the special education teacher

Program
Clifford Bowey Public School and Crystal Bay Centre for Special Education offer specialized school settings for pupils with developmental disabilities:
- focus of the program is to develop life skills which include communication skills, self-help skills, and an introduction to basic academic skills including functional literacy and functional math

- CHEO School Based Rehabilitation Services provide support for therapy-based programming in the areas of occupational therapy and physiotherapy. Home and Community Care Support Services Champlain (HCCSSC) provide nursing support
- an IEP containing specific expectations is designed collaboratively for each student according to learning needs and abilities. The IEP is based on, and modified by, the results of continuous assessment and evaluation
- it includes a transition plan and should include work experience opportunities, as appropriate

Evaluation Methods
- assessment and evaluation are ongoing throughout the year
- student progress is formally reported as per the reporting structure of the OCDSB on report cards and/or IEP

Category: Physical

Exceptionality: Physical Disability

Ministry Definition
A condition of such severe physical limitation or deficiency as to require special assistance in learning situations to provide the opportunity for educational achievement equivalent to that of pupils without exceptionalities who are of the same age or developmental level.

Special Education Class for Physical Disabilities/Physical Support Program (PSP)

Placements
● specialized classes at the following levels: primary, junior, intermediate, and senior   ● up to 12 students per class
Placement Criteria
● medical diagnosis of a physical disability with significant programming adaptation requirements
Criteria for Change in Placement
● the student's physical condition no longer requires therapeutic interventions offered in the program   ● the student's needs will be better met in an alternate placement   ● no longer benefiting from specialized placement   ● evidence of ongoing successful integration   ● one teacher with special education qualifications (Parts I and II)   ● Educational assistants allocated based on students' needs   ● LSS personnel provide assessment and consultative services to the special education teacher

Program
- at the elementary and secondary level, the physical support programs address the academic and physical needs of students at the appropriate level
- an IEP containing specific expectations is designed for each student reflecting learning needs and abilities
- CHEO School Based Rehabilitation Services provides support for therapy-based programming in the areas of occupational therapy, physiotherapy, nursing and speech disorders as applicable

- there is ongoing liaison with CHEO Development and Rehabilitation (Children's Treatment Centre services) for those students who enter from this service
- the progress of a formally identified student is reviewed on an annual basis through the IPRC process

Evaluation Methods
- assessment and evaluation are ongoing throughout the year. OCDSB Report Cards, Alternative Report Cards (if applicable) and IEPs formally record the student's progress

Alternative Placements
The school team will meet with the parents/caregivers to discuss alternative placements if necessary. Placements may include the following:
- other special education placement options if appropriate
- CHEO School (Early Intervention Program – JK/SK levels – option if appropriate)
- regular classroom with support from the LST/LRT
- regular classroom with monitoring from the LST/LRT

Exceptionality: Blind and Low Vision

Ministry Definition
A condition of partial or total impairment of sight or vision that, even with correction, affects educational performance adversely.

Blind and Low Vision

Placements
● regular classroom with specialized support
Placement Criteria
● 20/70 or worse in best eye with best correction as determined by an ophthalmological/optometry report
Range of Support
● blind students generally receive up to 50 per cent itinerant support depending on needs (e.g., braille, tactile and adaptive program) ● blind students usually require more intensive support ● low vision support is individualized (from itinerant 1–2 times a week to monitoring visits 2–4 times a year)
Available Resources
● teacher with specialized qualification in Blind/Low Vision. May also have certification to teach orientation and mobility ● orientation and mobility instructor ● classroom teacher ● educational assistants allocated based on student's needs ● LSS personnel provide assessment and consultative services to the special education teacher ● specialized equipment as needed

Program/Service Delivery Model
ITB/LVs provide:
- a school-based functional vision assessment to determine frequency of service and educational strategies
- direct instruction in Braille and other tactile learning strategies
- adaptation of curriculum materials (Braille, e-text, auditory, large print)
- orientation and mobility instruction (safe travel techniques)
- training in specialized equipment including computer hardware and software, optical aids, and other specialized equipment used in the classroom
- provide consultation and support to schools concerning needs related to vision
- the progress of a formally identified student is reviewed on an annual basis through the IPRC process

Evaluation Methods
- student's visual efficiency, tactile learning, orientation and mobility, and alternate skills are assessed regularly by the itinerant teacher, including functional vision assessments, observation and checklists
- assessment and evaluation are ongoing throughout the year
- student progress is formally reported as per the reporting structure of the OCDSB report cards and IEP, as well as anecdotal reports where appropriate

Alternative Placements
The school team will meet with the parents/caregivers to discuss alternative placements if necessary. Placements may include the following:
- other special education placement options if appropriate
- provincial demonstration school for the blind and deaf–blind, and the Francophone school for the deaf, blind, deaf–blind and for those with learning disabilities
- regular classroom with monitoring from the LST/LRT
- regular classroom with support from the LST/LRT

Category: Multiple

Exceptionality: Multiple

Ministry Definition
A combination of learning or other disorders, impairments, or physical disabilities, that is of such nature as to require, for educational achievement, the services of one or more teachers holding qualifications in special education and the provision of support services appropriate for such disorders, impairments, or disabilities.

Range of Placements
Depending on the student's strengths and needs, placements can range from a regular class to a special education class. While there are no special education classes devoted to students with multiple exceptionalities, these students' program needs can be met in a variety of placements.

Exceptionality: Mild Intellectual Disability and Behaviour

Ministry Definition of Mild Intellectual Disability
A learning disorder characterized by:
- an ability to profit educationally within a regular class with the aid of considerable curriculum modification and supportive service
- an inability to profit educationally within a regular class because of slow intellectual development
- a potential for academic learning, independent social adjustment, and economic self-support

Ministry Definition of Behaviour
A learning disorder characterized by specific behaviour problems over such a period of time, and to such a marked degree, and of such a nature, as to adversely affect educational performance, and that may be accompanied by one or more of the following:
- an inability to build or to maintain interpersonal relationships
- excessive fears or anxieties
- a tendency to compulsive reaction
- an inability to learn that cannot be traced to intellectual, sensory, or other health factors, or any combination thereof

Special Education Class for Students Requiring a Dual Support Program (DSP)

Placements
- specialized classes at the following levels: junior, intermediate, senior   - up to ten students per class
Placement Criteria
- significantly below-average intellectual potential as measured on a psychological assessment   - serious delays in the acquisition of fundamental academic skills exacerbated by behaviour problems   - impaired adaptive functioning (e.g., coping with life demands, personal independence)   - history requiring progressive discipline due to disruption, non-compliance, physical/verbal aggression, impulsivity, etc.   - history of highly dysregulated behavior
Criteria for Change in Placement
- does not require the same degree of alternative programming   - has academic and/or social needs that could be met more successfully within a different special class setting   - has the ability to succeed in a regular class with LST/LRT support/ monitoring   - no longer benefiting from specialized placement   - evidence of ongoing successful integration
Available Resources
- one teacher with special education qualifications (Parts I and II)   - educational assistants   - LSS personnel provide assessment and consultative services to the special education teacher

Program
- the focus of the program is to provide a structured learning environment with the opportunity to develop appropriate life and social skills
- the program allows for integration into regular classrooms and/or school activities
- an IEP containing specific expectations with a focus on behaviour is designed for each student, according to learning needs and abilities. This plan is based on, and modified by, the results of continuous assessment and evaluation including consultation with parents/caregivers on an ongoing basis
- the progress of a formally identified student is reviewed on an annual basis through the IPRC process

Evaluation Methods
- student assessment and evaluation are ongoing throughout the year
- student progress is formally reported as per the reporting structure of the OCDSB on report cards and IEP

Alternative Placements
The school team will meet with the parents/caregivers to discuss alternative placements if necessary. Placements may include the following:
- other special education placement options if appropriate
- regular classroom with monitoring from the LST/LRT
- regular classroom with support from the LST/LRT

Individual Education Plans (IEP)

Purpose of the Standard

To inform the Ministry and the public about the ways in which the Board is complying with Ministry requirements for implementing the IEP.

An IEP is a written plan describing the special education program and/or services required by a particular student on an ongoing basis. The IEP outlines the student's areas of strengths and needs as well as the program a student requires for instruction and assessment. The IEP documents formal assessments and any equipment a student requires to support their learning. The IEP is a working document that contains a transition plan and any required accommodations, modifications, or alternative programs needed to help a student achieve the learning expectations identified in their IEP.

The IEP reflects the school board's and the principal's commitment to provide, within the resources available to the school board, the special education program and services needed to meet the identified strengths and needs of the student. The IEP helps teachers monitor the student's progress and provides a framework for communicating information about the student's progress to parents/caregivers and to the student. For further information about IEPs the OCDSB has developed a Parent Guide resource for understanding Individual Education Plans.

Implementation of the Ministry of Education Standards and IEP Development for Identified Students

Implementation and monitoring of the IEP depends on appropriate sharing of information among those involved in executing goals and expectations set out in the IEP. The monitoring, implementation, and review of the IEP is overseen by the principal and the implementation of the IEP is the responsibility of the classroom teacher(s) in consultation with parents/caregivers and students who are 16 years of age, or older.

As per *Regulation 181/98,* all students in the OCDSB who are identified as exceptional by an Identification, Placement and Review Committee (IPRC) must have an IEP. An IEP may also be developed for a student who has not been identified as exceptional but who requires a special education program and/or services. An IEP is required when a student consistently demonstrates a need for accommodations or modifications for instructional or assessment purposes beyond typical differentiated instruction. In these cases, multiple sources of evidence would inform the creation of the IEP. Students who have been determined to have a demonstrated need for the use of SEA equipment also require an IEP.

Students identified as exceptional through an IPRC or those who have a previously implemented IEP must have an IEP developed or reviewed within 30 instructional days after the beginning of a new placement, or a new school year. Serving as working documents, IEPs are expected to be revised regularly to reflect the current strengths/needs and goals for that student.

Purpose of an IEP

An IEP will:
- be developed for each student who is identified as exceptional through the IPRC process
- be developed for a student who has not been formally identified as exceptional but who is receiving a special education program and/or services on an ongoing basis
- be developed within 30 instructional days of the student's first day in the program or the start of the school year
- be developed, implemented, and monitored in a collaborative manner with parents/caregivers, student, the school team, teachers, and Learning Support Services personnel
- outline expectations, strategies, assessment methods, and resources to facilitate learning based on the individual student's needs, strengths, interests, and history
- include a transition plan for: all students who have an IEP as per *Policy/Program Memorandum 156*, students 14 years of age or older as per Regulation 181/98 and students with autism as per Policy/Program Memorandum 140
- be reviewed and/or revised at least once each reporting period

Overview of the IEP Process
A team approach should underlie the IEP process and the process should focus on how the student is expected to progress through the Ontario curriculum, with accommodations and modified expectations, or alternative programs (not described in the Ontario curriculum).
The IEP Process can be broken down into five phases:
1. gathering information
2. setting the direction
3. developing the IEP as it relates to the student's special education program and services
4. implementing the IEP
5. reviewing and updating the IEP

Within each phase, several steps are taken to inform the development of an IEP. Here is an overview of some of the possible actions that may be taken within each phase:

Gathering information
School teams (parents/caregivers and student, if appropriate) will:
- consult and collaborate regarding
    - the purpose of the IEP
    - the goals outlined in the IEP
    - the plan to review the IEP
    - the possible outcomes/pathways that may result from having an IEP
- send the IEP Consultation Form home
- review student's Ontario Student Record (OSR) (including the IPRC's statement of decision and/or previous IEPs)
- gather information through observation of the student
- conduct further assessments, if necessary

Setting the direction
School teams (parents/caregivers, and student, if appropriate) will:
- establish a collaborative approach
- establish roles and responsibilities

- begin the work on the IEP by identifying the student's strengths and needs, as identified in the IPRC's statement of decision, where applicable

Developing the IEP

School teams (parents/caregivers and student, if appropriate) will:
- determine whether the student requires accommodations, modifications and/or alternative programming
    - if modifications are being considered, use evidence to determine the level of modification and clearly document the working grade level on the IEP
- review modifications on an ongoing basis, ensuring they are updated and reported on each term
- record information pertaining to individualized equipment, if required, evaluation and reporting, and provincial assessments, if required
- develop a transition plan (see Transition Plans Section below)
- record parents/caregivers/student consultations
- incorporate applied behaviour analysis (ABA) methods into the IEP for students with autism, where appropriate
- document human resources needed
- ensure the Principal has reviewed and signed the document as part of the approval process

Implementing the IEP

- school teams (parents/caregivers and student, if appropriate) will:
- share the completed IEP with the student, parents/caregivers, school staff, and other professionals
- put the IEP into practice and continuously assess the student's progress
- adjust the IEP, when necessary, to ensure to record any changes
- evaluate the student's learning and report the results of the evaluation to the parents/caregivers

Review and Update the IEP

School teams (parents/caregivers and student, if appropriate) will:
- collaborate as part of the review process and record outcome of discussions in the consultation log
- update the learning expectations at the beginning of each reporting period, or earlier, if required
- review the IEP regularly, including the transition plan, and record the revisions
- store the most current version of the IEP in the Documentation File in the student's OSR

The IEP process is cyclical (at the beginning of each term/semester) and best practices involve ongoing review, evaluation, and adjustment when needed.

Transition Plans

Transition plans are an essential part of the IEP and are developed to assist students in successful transitions as needed (e.g. from activity to activity, class to class, school to school, high school to post-secondary activities, etc.). This is done by:
- outlining goals
- listing actions required to meet those goals
- identifying individuals responsible for the actions
- specifying timelines to guide the plan

OCDSB schools engage in a range of transition planning tasks to support a variety of student transitions. Key components to successful transition planning include:
- consultation with:
  - student (as appropriate)
  - the parents/caregivers
  - new classroom team/new school
  - postsecondary institution (where appropriate)
  - relevant community agencies and/or partners
- sharing all of the required information with the schools and staff involved
- reviewing and/or revising at least once each reporting period to identify next steps that are individualized and appropriate for the student

The creation of transition plans is legislated and can be found in the following regulatory and policy documents:

Policy / Program Memorandum (PPM) No. 140, "Incorporating Methods of Applied Behaviour Analysis (ABA) states that school board staff must plan for the transition between various activities and settings involving students with autism spectrum disorders.

Policy / Program Memorandum (PPM) No.156 outlines for school boards and schools requirements for transition plans for students with special education needs from Kindergarten to Grade 12, September 2014.

With regard to transition planning, in addition to what is stated above about the requirements under O. Reg. 181/98, ministry policy requires that a transition plan be developed for all students, from Kindergarten to Grade 12, who have an IEP, whether or not they have been identified as exceptional by an IPRC, and including those identified as exceptional solely on the basis of giftedness.

Dispute Resolution Process
If differences of opinion around the content of an IEP should arise, these concerns will be mediated at the school level. It is the goal that through a collaborative process, successful programming for students will be achieved. Therefore, every effort is made to resolve differences through a shared approach between parents/caregivers and school staff. In the event of unresolved concerns, parents will work with the Superintendent of Education for the school. Also, the OCDSB has a Complaint Resolution policy and procedure in place. It can be accessed via the following link:

OCDSB Complaint Resolution Procedure

The Ministry of Education also has a resource for dispute resolution entitled Shared Solutions: A Guide to Preventing and Resolving Conflicts Regarding Programs and Services for Students with Special Education Needs.

Storage of IEPs
A student's IEP must be included in the student's OSR. This requirement ensures that the student's relevant assessment data and information about their strengths, needs and learning expectations are available to teachers working with them. To ensure that the IEP stored in the OSR is up to date, the current copy of the IEP should replace the previously filed copy. Previous

versions of IEPs are archived in the District's IEP software program for historical reference and do not need to be kept in the OSR.

Creation of the IEP online (IOL)
IEPs are created on an online platform (IOL). Relevant school staff have access to the students at their school. The following are sample screenshots of the document that is produced for each student. IOL has an Online Help feature, with screenshots that provide direction for all stages of IEP development.

IEP Consultation Form

Name: _____   DOB: _____

Grade: _____   Student OEN: _____

Please complete areas of this form that you feel will assist staff in developing the IEP for your child. Please return the form to the staff member responsible for the IEP. Please note that input may be considered in the development of your child's IEP.

1. Medical:
Is there any medical condition or concern which you feel may impact your child's learning? (Please include any changes to your child's medical condition.)

2. Testing/Assessment Results:
Are there any recent testing/assessment results which would be helpful in programming for your child?

3. Previously Successful Strategies:
Are there strategies which have worked particularly well for your child in the past?

4. Parental or Other Supports:
Are there supports that you have put in place (such as homework routines, assistive technology, tutoring, etc.) which would be helpful for school staff to know about?

5. Priorities: What do you consider to be a priority for your child's learning this year?

6. Other: Is there any other information you feel may impact on your child's learning (e.g. strengths and/or areas of need)?

Thank you for your contribution to your child's success at school.

Moving Forward in the Standard
This year, the LSS department:
- provided an IEP Parent Guide online to better access information regarding their role in the development of their child's IEP and its different components
- reviewed the list of environmental, instructional and assessment accommodations
- created an IEP resource to support school based teams around the creation and implementation of effective IEPs
- highlighted the importance of collaboration with parents throughout the IEP process
- monitored the need for the continuation of the IEP

Next year, the team in LSS will be focused on:
- continue highlighting the importance of collaboration with parents throughout the IEP process
- continue with messaging about monitoring the need for the continuation of the IEP
- starting conversations on how we can view IEPs through Indigenous and diverse cultural lenses to better reflect students' strengths, identities, and ways of learning

Provincial and Demonstration Schools in Ontario

Purpose of the Standard

To provide the public with information about the Provincial and Demonstration Schools that are operated for students who are Deaf, Blind, or Deafblind, or who have severe learning disabilities, which may include attention-deficit hyperactivity disorder (ADHD).

Provincial/Demonstration Schools
Provincial Schools and Provincial Demonstration Schools are operated by the Ministry of Education and are accessed through an application process that is initiated collaboratively between parents/caregivers and the student's school. Provincial and Demonstration Schools provide alternative education placement and educational supports for students who are Deaf, Blind, Deafblind or who have severe learning disabilities. Admittance to a Provincial School is determined by the Provincial Schools Admission Committee in accordance with the requirements set out in [Regulation 296](#).

Provincial Schools provide residential and day programs. Transportation to Provincial Schools for students is provided by school boards.

All students attending either a Provincial or Demonstration school require an IPRC meeting conducted at the student's home school in the OCDSB. Programs at provincial schools are tailored to the needs of the individual students and:
- are delivered by specially-trained teachers
- follow the Ontario curriculum and alternative expectations as outlined in the IEP
- offer a full range of programs at both elementary and secondary level

In addition, these schools
- serve as regional resource centres for students who are Deaf, Blind, or Deafblind
- provide outreach, in service opportunities, observation and consultation in pre-school, and classroom settings for students
- offer virtual learning opportunities and/or virtual home visits via Zoom for preschool students who are Deaf or Deafblind
- develop and provide learning materials and media for students who are Deaf or hard of hearing, Blind or have low vision, or are Deafblind
- provide school board staff with resource service
- ASL assessments and consultations upon request
- psychologist and speech-language pathologist consultations upon request
- provide webinars for all educators and educators in training

Current Statistics (2024-2025)

Type of School	School Name	Program	Number of students	Transportation (with escort)
Provincial	W. Ross MacDonald	Blind	0	Plane
Provincial	Ernest C. Drury	Deaf	0	Plane
Provincial	Sir James Whitney	Deaf	1	Highway coach
Provincial	Robarts School	Deaf	0	Plane
Demonstration	Trillium	Deaf	0	Plane
Demonstration	Sagonaska	Learning Disabled	0	Highway coach

Provincial Schools for the Deaf
The following Provincial Schools offer services for Deaf and hard-of-hearing students: Sir James Whitney School for the Deaf in Belleville (serving eastern Ontario), Ernest C. Drury School for the Deaf in Milton (serving central and northern Ontario), Robarts School for the Deaf in London (serving western Ontario), Consortium Jules-Léger in Ottawa (serving francophone students and families throughout Ontario). These schools provide alternative placement for Deaf students from kindergarten through secondary. Programs provide opportunities to acquire and develop language, literacy, numeracy, and inquiry skills in American Sign Language (ASL) and English or French (FSQ).

Schools for the Deaf
- provide rich and supportive bilingual/bicultural educational environments which facilitate students' language acquisition, learning, and social development through American Sign Language (ASL), English or French (FSQ)
- operate primarily as day schools
- provide residential facilities five days per week for those students who do not live within reasonable commuting distance from the school

The following are provided by resource services department at these schools:
- consultation and educational advice to the parent(s) of Deaf and hard-of-hearing children and school board personnel
- information brochures
- a wide variety of workshops for parents/caregivers, school boards, and other agencies
- an extensive home-visiting program delivered to parents/caregivers of Deaf and hard-of-hearing pre-school children by teachers trained in pre-school and deaf education

Ernest C. Drury School for the Deaf

Sir James Whitney School for the Deaf
350 Dundas Street West
Belleville, ON K8P 1B2
Tel: (613) 967-2823

Provincial School for the Blind and Deafblind
W. Ross Macdonald School is located in Brantford and provides education for blind, low vision, or deafblind students.

The school provides:
- a provincial resource centre for the blind, low vision and deafblind children
- support to local school boards through consultation and the provision of special learning materials, such as braille materials, e text, audiotapes, and large-print textbooks
- professional services and guidance to ministries of education on an inter-provincial, cooperative basis

Programs at this school
- are tailored to the needs of the individual student and are designed to help these students learn to live independently in a non-sheltered environment
- are delivered by specially trained teachers
- follow the Ontario curriculum developed for all students in the province
- offer a full range of courses at the secondary level
- offer courses in the Expanded Core Curriculum which includes Compensatory Skills, Braille Literacy, Orientation and Mobility, Daily Living Skills, Independent Living Skills, Social Skills, Self Advocacy, Assistive Technology and Orientation and Mobility
- offer accessible extra curricular activities
- provide assistance in preparing pre-school deafblind children for future education

W. Ross Macdonald School
350 Brant Avenue
Brantford, ON N3T 3J9
Tel: (519) 759-0730

Provincial Demonstration Schools
The Provincial Demonstration schools provide a specialized residential program for students with severe learning disabilities. The length of stay at a Provincial Demonstration School is typically one year in a highly specialized and resourced special program. It should be noted that the primary responsibility to provide appropriate educational programs for students with learning disabilities remains with school boards. Since Provincial Demonstration Schools are to act as a resource to school boards rather than to function as a separate education system, every effort is made to help the student return to the school in their local community as soon as possible. Transition planning with the community school board is key to this process.

Each provincial demonstration school has an enrollment of no more than forty students. The language of instruction at the Amethyst, Sagonaska, and Trillium schools is English; at Centre Jules-Léger, instruction is in French.

A. **District Level Support**

The following individuals / teams / personnel are available to support all staff in schools:
- Superintendent of Learning Support Services
- System Principals of Learning Support Services
- General Manager of Learning Support Services
- Mental Health and Critical Services Lead
- Program Managers: Educational Assistants, Psychology, Social Work and Speech and Language and Occupational Therapy
- Multi-Disciplinary staff
- Assistive Technology Team
- Learning Support Consultants
- Autism/Developmental Disabilities Team
- Itinerant Teachers (Deaf / Hard-of-Hearing and Blind / Low Vision)
- Itinerant Educational Assistants
- Professional Student Services Personnel (Social Workers, Psychology Staff, Speech-Language Pathologists, Occupational Therapist, Communicative Disorders Assistant, Behavioural Analysts)

District Level Staff Roles / Descriptions

All members of the Learning Support Services department work in collaboration with teaching personnel and parents/caregivers, to provide special education support and services to meet the needs of students and schools. Under the direction of the superintendent and the leadership team, LSS is comprised of:
- Administrative and support personnel
- Behavioural Analysts
- Braillist
- Communicative Disorders Assistants
- Coordinator, Autism and Developmental Disabilities Team
- Itinerant Educational Assistants: Autism/Developmental Disabilities; Early Learning; Elementary Mental Health; and, Secondary Mental Health I
- Itinerant teachers of Assistive Technology
- Itinerant teachers of Autism / Developmental Disabilities
- Itinerant teachers of the Blind/ Low Vision
- Itinerant teachers of the Deaf/ Hard-of-Hearing
- Itinerant Teacher of Learning Disabilities
- Learning Support Consultants
- Occupational Therapists
- Psychology staff
- Social Workers
- Speech-Language Pathologists

Braillist
- produces Braille transcriptions, electronic Braille transcriptions, e-text, large print materials, and tactile diagrams according to specific requirements as requested by the itinerant teacher for the blind/low vision staff for students
- maintains the program's blind/low vision inventory of teaching materials and equipment, reference books, computers, and technological equipment
- is responsible for conservation, storage and inventory of Braille texts in print and electronically

Itinerant Teachers of Assistive Technology
- support students who have technology based claims through the Special Equipment Amount (SEA) Funding
- provide consultative services to classroom teachers on assistive technology equipment and software
- provide staff and student training on assistive technology equipment and software
- support the implementation and training of Ministry Licensed software for assistive technology system-wide

Itinerant Educational Assistant of Assistive Technology
- the Itinerant Educational Assistant of Assistive Technology works with students, staff, and families to support the integration of assistive devices
- this support includes training related to specific devices and/or tools for students with specialized learning needs

Itinerant Teachers Autism / Developmental Disabilities
- increases capacity of regular classroom teachers to meet the needs of students with Autism and/or Developmental Disabilities
- provides professional development and in class support
- provides instructional and educational support services to students diagnosed with Autism, including support in the development of ABA strategies
- consults with teachers and other LSS team members (e.g. ASD team, SLP,)
- provides professional development to all school staff including principals, EA's, ECE, teachers etc
- works collaboratively with the Autism Spectrum Disorder team and the multi-disciplinary teams at individual schools
- supports IEP development, programming and transition plan development

Itinerant Teacher Learning Disability
- support teachers in the regular program with the transition of students out of the Learning Disability- Semi-Integrated Program (LD-SIP)
- increases capacity of regular classroom teachers to meet the needs of students with learning disabilities; provides professional development and in class support
- provides instructional and educational support services to students diagnosed with learning disabilities
- consults with teachers and other LSS team members (e.g. ITATs, LSCs)
- works collaboratively with the multi-disciplinary teams at individual schools
- supports IEP development, programming and transition plan development

Coordinator, Autism/Developmental Disabilities Team
- takes a lead role in coordinating Ministry of Education initiatives across the district for students with Autism and Developmental Disabilities
- district contact for Ontario Autism Program (OAP), Entry to School Program (ETS), and Urgent Response Services (URS)
- oversees the Dedicated Space Pilot Project, World Autism Awareness initiatives and supports the development of professional learning objectives pertaining to Autism and Developmental Disabilities
- develops resources to support ABA strategies for all schools
- provides professional development and guidelines on how to embed ABA strategies into the classroom
- liaises with therapy professionals in the community who provide IBI and ABA support (e.g. CHEO, Portia, etc.)
- supports all Autism initiatives such as; Autism awareness month, parents/caregivers, conferences and events
- works collaboratively with the Autism/Developmental Disabilities Team and the multi-disciplinary teams at individual schools
- supports pilot projects and evidence-based social skills development initiatives

Behavioural Analysts
- works to support school staff in understanding how to support students with challenging behaviour
- may recommend and/or develop behaviour programs
- may conduct Functional Behaviour Assessments
- provides professional development to school staff
- models and co-teaches the use of ABA strategies
- reviews and provides research related to emerging supports available for students with behavioural needs
- works collaboratively with the Autism Spectrum Disorder team and the multi-disciplinary teams at individual schools

Itinerant Teachers of Blind/Low Vision
- direct instruction in Braille and other tactile learning strategies
- develop accommodations/modifications and acquisition of curriculum materials (Braille, tapes, large print, etc.)
- provide orientation and mobility instruction (i.e., safe travel techniques)
- provide training in specialized equipment including computer hardware and software, optical aids, and other equipment used in the classroom
- provide consultation and support to schools related to vision
- provide consultative services and interpretations of vision reports to teaching staff
- facilitates the transition of students from pre-school/outside agencies to elementary school and from elementary school to secondary schools
- supports the development of IEPs, programming, and transition plans
- monitors student needs and provides feedback to school related to supports required as student needs fluctuate

Itinerant Teachers of the Deaf/Hard of Hearing
- provide assessment, direct instruction, and academic support services to students with hearing losses ranging from mild to profound (K to 12)
- provide consultative services to classroom teachers and school staff, and ongoing guidance to parents/caregivers of students who are deaf/hard of hearing
- apply an Auditory-Verbal/ Oral approach to maximize the student's auditory potential, speech and language development, and participation alongside his/her hearing peers
- provide training and ongoing management of specialized equipment used in the classroom

Learning Support Consultants (K to 12)
- develop and deliver special education professional development for staff
- assist school teams with all aspects of the special education program and service delivery
- promote current teaching methodologies and instructional practices which reflect the Ontario curriculum and Ministry of Education documents and direction
- identify and support best practices in all specialized program classes and provide program support
- committee member on centralized program referral committees to specialized program classes
- supports IEP development, programming and transition planning

Psychology Professional Staff
- provides ongoing consultation to schools on student related issues
- engages in early screening and intervention on learning, student development, and mental health
- provides both direct or indirect support or intervention to students
- provides psychological assessments for students K - 12
- plays an integral role as a school multi-disciplinary team member and responds to threat making, high risk behaviour, and tragic events within the school
- collaborates with community partners and facilitates access to external resources, when appropriate
- participates in central referral committees for specialized classes
- engages in staff training in such areas as suicide prevention, mental health promotion, and behaviour management

Social Work Professional Staff
- consults with each assigned school to establish priorities with respect to students, staff and families
- provides direct intervention with students, families and school staff directed at resolving or managing a range of social, mental health and/or behavioural issues affecting all students
- Liaises with and refers to community agencies and acts as a system navigator for families when appropriate
- provides crisis intervention typically focusing on assessment and follow up in regard to risk issues including suicide, violence and threat making behaviour
- participates in central referral committees for specialized classes
- provides support to school staff and students in the aftermath of tragic events
- investigates truancy as mandated in the *Ontario Education Act and Regulations* and assists with student and parents/caregivers re-engagement in school
- provides counseling support of students in the SAL program where required

- provides support to families facing financial hardship
- may provide interventions at all levels of the Tiered-Approach to Intervention district-wide

Speech-Language Pathology Professional Staff
- provides an array of service to students from kindergarten through grade 12
- provides identification, prevention, assessment, consultation and programming/intervention of communication disorders in the areas including language, speech, communication, cognitive-communication, reading and writing, and augmentative and alternative communication
- facilitates internal and external referrals as appropriate
- provides professional development to educators and training to parents/caregivers, and provide services at all tier levels
- provides weighted services in some OCDSB specialized program classes including: language learning disability, LDSIP, and specialized and integrated programs for students with developmental disabilities and Autism Spectrum Disorder
- plays an integral role as a school multidisciplinary team member and as members of central teams such as Early Learning and ASD/DD Teams
- participates in central referral committees for specialized program classes
- supervises Communicative Disorders Assistants (CDAs) who provide programming at specialized sites, and support SEA communication apps for students who are non/minimally-speaking

Communicative Disorders Assistants
Communicative Disorders Assistants (CDAs) are support personnel who are specifically trained and educated in communicative issues. Under the supervision of speech-language pathologists, CDAs:
- implement programming that is set forth by their supervising speech-language pathologist(s), monitor student progress, maintain equipment, and prepare materials and resources

Occupational Therapist
Occupational Therapist (OT) complements the OT services provided by community service providers (i.e., CHEO) by addressing imminent safety concerns to self/others and/or complex sensory processing issues that affect the student's participation within an educational context. The OT:
- provides assessment, consultation and recommendations (including but not limited to SEA)
- collaborates with educators, Learning Support Consultants and LSS Central Teams to coordinate referrals and support for students
- provides system-level professional development opportunities
- participates in central referral committees for specialized program classes

District Level Central Teams

The Assistive Technology Team
- provide support and training district-wide to schools on assistive technology purchased through Special Equipment Amount (SEA) funds
- coordinates the ordering of SEA equipment
- coordinates and facilitates training/professional development sessions on SEA equipment and software for students and staff
- assists in the completion of special equipment applications

The Autism/Developmental Disability Support Team
- provide direct and consultative program support to schools
- facilitates transitions for students who are both within and new to the OCDSB
- provides ongoing support to students with a diagnosis of Autism and a developmental disability
- assists in the development and implementation of IEPs, behavioural programs, communication strategies and assessment practices
- supports new Ministry initiatives and pilots related to the field of Autism
- responds to multi-disciplinary team requests for support as needed
- provides professional development to the District and the community
- supports PPM 140 and ABA practices in schools
- provides resources to schools to support environmental accommodations and recommendations for sensory rooms / spaces
- provides support to two specialized schools for students with developmental disabilities, Crystal Bay Centre for Special Education and Clifford Bowey Public School and all specialized classes for Autism and Developmental Disability district-wide
- provides program support for teachers and administration while working with parent(s)/caregiver(s, and community agencies to facilitate new admissions
- provides transition support to schools and parents/caregivers upon entering into the OCDSB

The Behaviour Support Team / Social-Emotional Learning Teachers
- provide support to the Behavior Intervention Program (BIP), students, parents/caregivers, staff, and administration
- provide consultation and classroom observations specific to students who present challenging behaviours
- SELTs (Social-Emotional Learning Teacher) provide consultation and classroom observations specific to students demonstrating stress behaviour or challenging behaviour in Kindergarten to grade

The Early Learning Team
- provide class-wide and student-specific support for Kindergarten educator teams
- provide student-specific support for Kindergarten students who present with characteristics consistent with developmental language disorder in the severe range (referral by a school speech-language pathologist)
- the multidisciplinary team includes speech-language pathologists, psychological services staff, social workers, educators and educational assistants
- provide consultation to address a range of concerns for Kindergarten students including language, behavior regulation, development, social skills and well-being

- collaborate with community partners and provide individual support for difficulties with behavior regulation
- all LSS Kindergarten supports are accessed through a common referral process

The Gifted Support Team
- provide support to schools for programming and planning for students who have been identified with giftedness
- provide consultation and recommendations pertaining to giftedness identification procedures
- creates awareness around supports and connects staff with a wide variety of suppports available to support students with giftedness

Itinerant Educational Assistants (IEA), Mental Health Team
- provides consultation to school teams, classroom observation and direct service to students exhibiting stress behaviour, including the development of behavior support plans
- contributes to the development of student behavior plans (Safety Plans, Safe Plans, and Behaviour Management Plans)
- provides staff coaching and professional development related to social emotional learning and promoting positive student behavior
- provides direct service to students with organization, stress management, and goal setting and assists with school re-engagement
- provides small group and classwide interventions related to the development of mental health literacy, stress management/coping skills, and pathways to care
- contributes to the development of transition plans and provides support for students returning from Education and Community Partnership Programs

Tragic Events Response Team
When a tragedy occurs, the school community may play a critical role in responding to the needs of students and staff. The psychology and social work staff at the OCDSB provide support services following a tragic event in the school community on an as-needed basis. Along with school staff, the psychology and social work staff support students, educational staff and parents/caregivers, in the aftermath of a crisis by disseminating information, identifying individuals at risk, providing mental health services, linking individuals with community services, and providing follow up support as needed.

Urgent Care Team
A related service offered by the psychology and social work staff at the OCDSB is the Urgent Care Team. The Urgent Care Team comprises psychology staff and social workers who provide consultation to our professional services staff around individual students who may be experiencing extreme stress (e.g., suicidal ideation, extraordinary distress and/or psychotic symptoms). The Urgent Care Team also provides a liaison to the CHEO Emergency Department, who provide consultation and recommendations on follow-up services.

School Level Support
The following supports are available within schools:
- School Principals (and Vice-Principals where applicable)
- Classroom Teachers
- Learning Support Teachers and Learning Resource Teachers (elementary only)
- Specialized Program Classroom Teachers / Staff
- Educational Assistants

- Early Childhood Educators (Elementary panel only)

School Level Staff Roles and Descriptions

School Principal
- ensures the development, implementation, and review of a student's IEP, including a transition plan, according to provincial requirements is developed and followed
- chairs IPRC meetings
- supervises all school staff
- consults with parents/caregivers, and with school board staff to determine the most appropriate program for students with special education needs
- ensures that parents/caregivers are consulted in the development of their child's IEP and that they are provided with a copy of the IEP
- ensures the delivery of the program as set out in the IEP
- ensures that appropriate assessments are requested if necessary and that parents/caregivers consent is obtained
- provides the parent guide, and other relevant documents to parents/caregivers

Classroom Teacher
The role of the classroom teacher is to support the learning of all students including those who may need accommodations/modifications to their program. Although not all classroom teachers have special education qualifications, they play a vital role in assessing student learning and ensuring the delivery of services to all special education students. Within the regular classroom, the teacher works with all students to meet their individual needs.

Learning Support Teacher (LST) / Learning Resource Teacher (LRT)
- play a major role in the delivery of special education in schools and deal with the overall administrative and educational needs of students requiring special education programs /services within the school
- undertake a variety of roles including consulting with and assisting classroom and other special education teachers with early identification, curriculum differentiation and modification, assessment, intervention strategies, the development and coordination of IEPs and in-class or withdrawal support for exceptional learners
- liaise with members of the multidisciplinary team
- provide the highest level of support offered in a school-based program
- work with a variety of exceptional students who require intensive support in core academic areas

Specialized Program Classroom Teacher
- provide learning opportunities tailored to each student's specific exceptionality, taking into consideration their strengths and needs, and additional information as outlined in the student's IEP
- Support students to progress at their appropriate level and reach their potential within the parameters of the Quality Program Indicators for the specialized program class placement

Educational Assistant
Educational Assistants (EA) are supervised by the school principal in consultation with the classroom teacher. The role may vary from assignment to assignment but usually includes:
- assisting in crisis prevention and intervention
- supporting the planning, organizing, and implementing of the behavior/social/instructional program in cooperation with the classroom teacher
- assisting students in various ways, with safety, behaviour and/or medical needs
- specialized skills and qualifications are required for specific assignments (e.g. Braille, American Sign Language, catheterization) with respect to the EAs assigned to schools

School EA allocations are reviewed and approved by the Senior Team/Board annually.

Early Childhood Educator (ECE)
- works collaboratively with the classroom teachers in implementing and planning education to Year 1 and 2 children
- assesses the development of Kindergarten children through observation and monitoring
- upholds a classroom environment that promotes each child's physical, cognitive, language, emotional, social, and creative development and well-being
- relays information to families
- undertakes duties assigned by the principal in regards to the Kindergarten program

Staff Development

Purpose of the Standard

To provide details of the Board's professional development plans for special education staff to the Ministry and to the public.

The OCDSB Learning Support Services Staff Development Plan
The overall goal of the LSS Staff Development Plan is to build the capacity of special education staff, classroom teachers, support staff, and administrators to provide them with access to information, materials, and skills necessary to implement and support programming for exceptional students rooted in an inclusive design framework. The OCDSB continues to gather identity-based student data to inform support and resources to support student achievement and well being. LSS strives to model for educators that the work supporting all learners is rooted in Learning for All Universal Design for Learning (UDL), Differentiated Instruction (DI) and culturally relevant approaches. These resources in conjunction with the following District frameworks underpin the learning in LSS:

- The OCDSB Strategic Plan
- OCDSB Indigenous, Equity, and Human Rights Roadmap - Eliminating Barriers to Success 2024-2028 (Draft)
- The Exit Outcomes

The LSS Staff Development Plan incorporates feedback from school-based special education staff, (learning support teacher (LST), learning resource teacher (LRT) (elementary only), specialized program classroom staff, and through an ongoing evaluation of system needs. In addition, the following are other ways staff provide input for staff development planning:
- written and verbal feedback
- requests from school administrators and special education teachers for school-based in-service around specific school needs (including teaching staff)
- feedback from LSS staff
- requests from senior administration around in-service requests
- requirements as prescribed in legislation and District policies and procedures

In addition, LSS is required to follow specific regulations and mandates from the Ministry of Education. Priorities in the area of staff development are determined by Ministry of Education initiatives and Board initiatives. The following factors are considered:
- direction from the Director's Executive Council (DEC)
- changes in Board policy and procedures
- system-level professional development focus
- perceived needs as determined by LSS staff
- requests from schools
- requests from staff

Professional Development Input from SEAC
- all recommendations for staff development are open for consideration; and
- staff consider input received at each SEAC meeting.

Staff Development Budget

The LSS Department has spent the following on professional development. These figures are approximate. These figures do not reflect additional costs such as: travel, food, supplies etc.

Professional Development Initiative	Amount
Assistive Technology Training	$20,456
CEC Annual Special Education Conference	$400
CPA (Canadian Psychological Association) Membership	$500
Early Math Intervention	$98,587
Educational Assistant Learning Days	$56,000
Empower Reading Program Training	$73,225
Geneva Centre for Autism Symposium	$9,300
Language Learning Disability (LLD) Training	$2,824
Learning Disabilities Specialized Intervention Program (LD-SIP) Training	$5,630
Learning Support Teacher Training	$32,465
Mental Health Initiatives Includes: Applied Suicide Intervention Skills Training (ASIST) Training, Restorative Practices Training, Roots of Empathy, Suicide Prevention Life Promotion, Violence Threat Risk Assessment (VTRA) Traumatic Events, Student/Staff Mental Health Champions	$96,110
OASW (Ontario Association of Social Workers) Annual School SW Symposium	$2,500
Ontario Association for Behaviour Analysis (ONTABA)	$375
Orientation and Mobility Symposium	$247
Peers for Preschoolers Training - UCLA	$1,470
Practical Functional Assessment and Skills Based Treatment Course	$423
Primary Special Needs (PSN) Training	$1,977
SAC Speech-Language & Audiology Canada Conference	$149
Shelley Moore Webinar Inclusive Education	$1,620

Opportunities for in person staff development were selective in 2024-2025 due to the staffing demands to find replacement staff for schools. Prioritized training such as Behaviour Management Systems (BMS) training, Violent Threat Risk Assessment (VTRA) training, Applied Suicide Intervention Skills Training (ASIST), and LST Networks were offered. Other opportunities were offered outside school hours for staff. These opportunities were offered virtually and in person.

Principals and Vice-Principal Intern Program / Training Opportunities
- mandatory intern program for newly appointed principals and vice-principals
- ongoing professional learning at District Operations Meetings
- workshops organized for principals and vice-principals, e.g., Assistive Technology, IPRC Training, Autism Spectrum Transition Planning, ABA, Learning For All and IEP development, etc

New Teacher Induction Program
The Ministry of Education initiative ensures beginning teachers are matched with a teacher mentor as they join the teaching profession. Through the various components of the New Teacher Induction Program (NTIP), new teachers are supported as they build knowledge, skills and self-confidence. New teachers are paired with an experienced teacher mentor who provides support by building relationships to create a collaborative, collegial environment in which new teachers feel supported both emotionally and professionally. They also participate in an extensive and differentiated professional development program designed to address the specific needs of these new professionals in the areas of classroom management, assessment and evaluation, teaching students with special education needs, and literacy and numeracy.

Special Education Workshops for Staff
The Learning Support Services Department is committed to ongoing professional development for all staff. Learning Support Teachers from all schools were presented with professional development from LSCs through office hours and direct support in schools and through LST Networks. Three networking opportunities were available throughout the year. This year, the following workshops were offered to OCDSB staff:

- ABA and Trauma informed practices
- Anti-Sex Trafficking training
- Augmentative and Alternative Communication For Nonverbal Students in the Classroom
- Autism Mentorship
- Autism New Teacher Training
- Autism Specialized Program, Elementary and Secondary networking Sessions
- Autism Working with Challenging Behaviours and Teaching Independence
- Autism/Developmental Disabilities Toy Bin training
- Autism/Developmental Disabilities Resource Room Supports
- ASIST (Applied Suicide Intervention Skills Training)
- Augmentative and Alternative Communication
- Autism And Developmental Disabilities Team weekly office hours
- Behaviour Intervention Program Professional Development for BIP Staff
- Behaviour Management Systems Training (BMS)
- Building Resilience through Attachment Relationships
- Building AAC for Nonverbal Students in the Classroom
- Cannabis in Schools
- Canva For Social Communication and Self Regulation Tools
- Comprehensive Autism Planning System (CAPS)
- Communication Strategies for the Early Learner
- Cyber Safety
- Data Collection Training
- Demystifying Sensory Processing in the Classroom: parts 1 & 2
- Early Learning Strategies
- Empower – Day 4 Comprehension and Vocabulary, Gr. 2-5
- Empower – Day 4 and Initial Decoding and Spelling, Gr. 2 – 5

- Empower – Day 4 Decoding and Spelling, Gr. 6-8
- Empower – Training Review Gr. 2-5
- Empower - Principal / Vice Principal session
- Emotion Focused School Support
- Equity Centered Trauma Informed Education
- GLP Networks with a focus on Literacy and Executive functioning
- IEP Development for Students with Autism and Developmental Disabilities
- IEP Principal Drop in Session
- Inclusive Education Sessions
  - Executive Functioning
  - IEP development
  - Understanding Inclusive Education
  - Effective use of special education staff to support inclusive practices
- Inquiry Play Based Learning for Students with Autism
- Integrated Transition Planning Workshops
- IPRC Principal Drop in Sessions
- Lexia Reading Intervention - Introduction
- LLD Assistive Technology Workshop
- LST Office Hours, and LST Networks
- Learning Disabilities/ITAT sessions for parents
- Make and Take sessions- structure learning bins; visuals for use in the classroom, etc
- New Teacher Induction Training-Understanding and supporting your students with ASD
- Non-Violent Crisis Intervention (NVCI)
- Office hours - OT, BA, Behaviour
- Reading Comprehension For Students With ASD
- Restorative Practices
- SLIP - Speech Language Intervention Program
- Social Communication In Class
- Social Skills training (Art of Play; Art of Conversation; Peers)
- Social Learning for LD-SIP Sites
- Sonderly (Geneva Centre) E-Learning Modules
  - Introduction to Autism
  - ABA Level I and II
  - ADHD in The Classroom
  - Core Teaching Strategies For Autistic Students
  - Supporting Play Based Learning For Students with ASD
- Structured Learning Toy Bin
- Supporting Structured Teaching
- The Power of Play
- Think Sensory: Fostering growth and nurturing participation through co-regulation and creating sensory safety
- Third Path Training
- Top Ten Tools Reading
- Tools for Social Understanding
- Transitions: Kinder/Entry to School, Primary/Junior, Intermediate/Secondary and Integrated Transitions (Students with ID/DD) Post Secondary
- Understanding Executive Functioning
- Violence Threat Risk Assessment (VTRA)
- WIAT Training

Cost Sharing Arrangements
Some staff development is provided on a cost-sharing or partnership basis with other ministries or agencies. The following are examples of such cost-sharing arrangements:
● Ministry of Child and Youth Services – Child and Youth Workers
● M.F. McHugh Education Centre (Education and Community Partnership Program)
● Algonquin College – early health screening for vision, hearing, height etc.
● Ottawa Catholic School District (OCSB) Blind/Low Vision Itinerant Teachers

Communication of Professional Development
In-service workshops are communicated to staff via the OCDSB electronic messaging system and posted on our electronic registration system, ePLC. In some instances, invitations for training and workshops are sent to specific schools to reach a target audience.

Moving Forward in this Standard
LSS is continuing to support the system with ongoing dialogue and learning about inclusive education. This will continue to involve suggested reading, learning modules, modeling/coaching, and a shift to direct use of inclusive language in student documentation. Due to the increasing complexity of students there is focus on ABA professional development and other learning to support students with autism in an educational setting.

Equipment

Purpose of the Standard

To inform the Ministry, Board staff members and other professionals, and parent(s) about the provision of individualized equipment for some students with special needs.

General Overview
Special Equipment Allocation (SEA) may originate from two sources:
- Formula Component
- Claims-Based Component

Formula Component
Any type of specialized equipment costing under $5,000 before tax for use by an individual student with special education needs that may include technological or non technological specialized equipment.

Claims-Based Component
Any type of single item (any equipment type technology related or not) costing $5,000 or over before taxes for use by one specific student with special education needs.

Examples of specialized equipment for use at school
The OCDSB strives to ensure that specialized equipment is provided for students who require it. Specialized equipment for use at school include:
- Sensory equipment
- Hearing support equipment
- Vision support equipment
- Personal care support equipment
- Physical assists support equipment
- Computer and software related equipment

A full overview of the SEA Guidelines for 2024-2025 is outlined on the Ministry of Education website.

The OCDSB procedure Student Specialized Equipment Purchased with Ministry Special Education Amount (SEA) Funding is outlined on the OCDSB website.

Funding Information and Allocation for Specialized Equipment
SEA provides funding to school boards to assist with the costs of equipment *essential* to support students with special education needs where the need for specific equipment is recommended by a qualified professional. This equipment is to provide students with accommodations that are directly required and essential to access the Ontario curriculum and/or a board-determined alternative program and/or course and/or to attend school. All equipment purchased through SEA funding is the property of OCDSB, who reserves the right to make the final decision in purchasing, and allocating equipment for students. The OCDSB consistently researches and purchases the most relevant equipment (i.e. technology) to assist students. Where equipment is no longer required, the OCDSB can reassign SEA purchased equipment to other students.

Determination of Need
The determination of need is based upon a recommendation by a qualified professional, as listed in the SEA guidelines, with input by school staff. The recommendation is based on equipment deemed essential to the student in order to access the curriculum as outlined in the IEP.

Required Documentation
School teams work collaboratively with parents / caregivers to gather and provide the required information to submit a SEA application. The following information is required:

Non-Computer Application
- a recommendation from an appropriately qualified professional including the purpose and function of the equipment that is essential for the student to access the curriculum
- a copy of the quote(s) and/or product information of the equipment to be purchased (non-computer)
- a current copy of the student's IEP
- an action plan from the school team outlining how the equipment will be integrated into the student's program
- consent form to release report(s) from the qualified professional
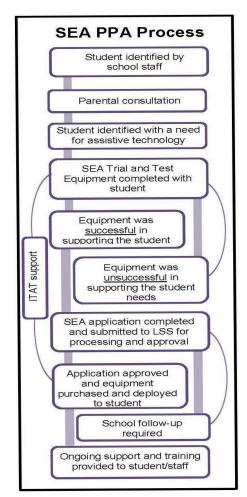

Computer Application
- a recommendation from an appropriately qualified professional including the purpose and function of the equipment that is essential for the student to access the curriculum
- a current copy of the student's IEP
- an action plan from the school team outlining how the equipment will be integrated into the student's program;
- consent form to release report(s) from the qualified professional
- a copy of the student's report card

Eligible Specialized Equipment
Eligible expenses include all costs associated with purchasing and/or leasing equipment to meet students' special education needs as well as the related costs for peripheral devices, service contracts and training that are required to make equipment operational.

Portability
Equipment purchased by a school district with SEA funding is portable and may move with the student from school to school or from board to board within Ontario. When a student transitions between schools in the OCDSB, as a component of the transition planning, student equipment is considered and moved when appropriate and required at the new school. If a student leaves the province, the equipment stays with the Board to be reallocated as needed.

SEA PPA Process

Student identified by school staff

Parental consultation

Student identified with a need for assistive technology

SEA Trial and Test Equipment completed with student

Equipment was successful in supporting the student

ITAT support

Equipment was unsuccessful in supporting the student needs

SEA application completed and submitted to LSS for processing and approval

Application approved and equipment purchased and deployed to student

School follow-up required

Ongoing support and training provided to student/staff

SEA Equipment use outside of the school setting
SEA equipment is expected to remain at school. Under exceptional circumstances, special arrangements can be made with Learning Support Services to allow the equipment to go home. In the circumstances where a student has been granted permission to take the equipment home, the principal of the school will work with the parents/caregivers to ensure that the required information and documentation is gathered to align with the District procedure. When equipment is authorized for use outside of the school setting, the parents/caregivers assume responsibilities for the equipment. The District is not responsible, nor will it cover the cost of loss or damaged SEA equipment while off school premises. All SEA equipment must be returned to the school in June of each year for storage.

Ministry Review
The Ministry of Education may conduct classroom, school and board visits of selected claims and review all required documentation in support of those selected SEA claims. The review ensures that the equipment is operational, in good repair and in regular use by the student. The Ministry also expects that the students and staff are able to operate the equipment properly and effectively.The OCDSB engaged in a Ministry Review in 2024-2025, and the conclusion was that claims were accurate, and the equipment was operational and in good repair.

SEA Support Team

Itinerant Teachers of Assistive Technology (ITAT)
The Itinerant Teachers of Assistive Technology work with students, staff, and families to support the integration of assistive devices at school. This support includes device/tool/platform training as well as resources to ensure effective implementation and pedagogical practices. The ITAT's also liaise with Business Learning Technologies (BLT) to determine what new software and applications are needed.

Itinerant Educational Assistant of Assistive Technology (IEAAT)
The Itinerant Educational Assistant of Assistive Technology works with students, staff, and families to support the integration of assistive devices. This support includes training related to specific devices and/or tools for students with specialized learning needs.

Learning Support Consultant of SEA
The Learning Support Consultant of SEA is responsible for ensuring that the OCDSB adheres to the Ministry of Education's SEA Guidelines. This includes:
- reviewing applications to ensure proper documentation
- working with the districts Business and Learning Technology team to ensure hardware, software and applications are properly vetted
- liaise with outside agency regarding professional recommendation
- liaise with ITAT and IEAAT team

Speech-Language Pathologist
Facilitates the students' access to vetted communication apps through SEA for those who are non-verbal/minimally-verbal, and are referred for a SEA assessment by a school Speech-Language Pathologist (e.g., assessment to determine an appropriate app, documenting results & recommendations for submission to SEA)

- reviews applications to ensure proper documentation
- provides updates and support for school Speech-Language Pathologists
- supervises SEA-funded Communicative Disorders Assistant

Communicative Disorders Assistant
- completes all tasks under the supervision of the SEA-funded Speech-Language Pathologist
- prepares assessment materials
- programs the prescribed communication app to prepare it for use by the student
- delivers iPads and pre-programmed apps to schools for training and use
- provides support to educators on the use of the prescribed communication app (e.g., training, troubleshooting, resource preparation)

Occupational Therapist
- conducts student-specific assessments to determine the need for adaptive equipment necessary for the student to access the curriculum and participate at school
- provides mediator training, coaching, and collaboration on the use of prescribed SEA equipment
- develops resources and provides training on environmental modifications and universal sensory regulation strategies to support UDL in the classroom
- collaborates with the Learning Support Consultant of SEA to manage SEA surplus equipment inventory and tracking

Ottawa-Carleton District School Board Special Education SEA Claims

In the 2024-2025 SEA year (May 1, 2024 – April 30, 2025) the OCDSB processed the following number of applications:

Claim Types	Number of students	Dollar Amount Spent
Formula		
Computers and support components	969*	$830,171.36*
Non Computer Items less than $5000 and repairs (sensory, physical, personal care, hearing, vision)	390	$1,033,839.02
Staffing	TBD*	$ 2,219,065.15
Total		$4,083,075.51*
Non Computer (Claims)		
Total Number of claims Above $5000	50*	$373,681.33

*These figures will be available at the beginning of June, 2025.

Accessibility of School Buildings

Purpose of the Standard

To provide the Ministry of Education with further details of the Board's multi-year plan, which was previously submitted to the Ministry, for improving accessibility for students with physical and sensory disabilities, and to provide the public with this information.

The annual accessibility plan that is required under the Accessibility for Ontarians with Disabilities Act (AODA is normally submitted to the Board of Trustees in June of each year for publication in September. You can locate the review at http://www.ontario.ca/government/accessibility and the plan at Multi-Year Plan.
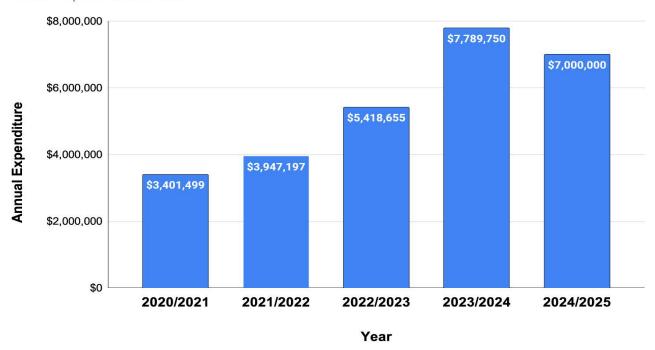

The public can obtain and access the Ottawa-Carleton District School Board Accessibility Plan on the OCDSB Board website. A hard copy is available by contacting Communications and Information Services at 596-8211, ext. 8310.

Based on the 2006 OCDSB Accessibility Audit, cost estimates were developed for each facility to meet AODA's 100% "barrier-free" expectations. The individual site estimates ranged between $101,000 and $2.2M.

In order to fulfill the accessibility needs required by the AODA by 2025, an annual revenue stream of $4.2M, totaling in excess of $80M between 2006 and 2025 is required.

Annual expenditures on accessibility are as follows:

Annual Expenditure vs. Year

Transportation

Purpose of the Standard

To provide details of the Board's transportation policies to the Ministry and to the public.

Transportation providers must, in all respects, meet the requirements of federal and provincial legislation, regulations and standards governing student transportation using vans, school buses and public transit. They must also comply with relevant Ministry of Education requirements and Board policies and procedures governing student safety and transportation.

The Ottawa Student Transportation Authority (OSTA) is responsible for the provision and administration of all OCDSB transportation services.

The OCDSB Policy P.127.TRA, Ottawa Student Transportation Authority, establishes the authority of the OSTA to act as the Board's agent with respect to the provision of transportation services to students of the OCDSB. Outlined in this policy the OCDSB recognizes the Ministry of Education requirement for the provision of safe, effective and efficient student transportation services through a consortia delivery model. Delivery of transportation services is detailed in a Service Level Agreement (SLA). The OCDSB has responsibility for service standards to be included in the SLA including but not limited to: eligibility standards based on distance address and program; bell time changes of more than 10 minutes; and accessible transportation for students with special needs. Through this policy the OCDSB delegates authority to its representatives on the OSTA Board of Directors to create policies and procedures as required to fulfill the service requirements, as well as other elements required to maintain the OSTA organization.

Information about OSTA may be found on their website at Ottawa Student Transportation Authority. More specifically, the following OSTA policies relate to the provision of accessible transportation:

- T10 Stakeholder Responsibility
- T14 Transportation Services
- T15 Transportation of Service Animals
- T18 Transportation Eligibility
- T21 Accessible Transportation
- T22 Transportation for Students in a Joint Custody Arrangement and Living in Two Homes

The Board encourages the inclusion of students with special education needs with other students in regular programs as much as possible. This is also true in transportation, where students with special education needs may be assigned to yellow buses or public transit, with accommodations. In the event inclusion is not possible, the Board agrees to provide specialized/accessible transportation for students with special education needs for whom the Board has received an acceptable medical certificate and/or the Learning Support Services

Department has determined that regular transportation is not the best option for a student given the nature of the student's disability or safety concerns.

Under the Accessibility for Ontarians with Disabilities Act (AODA), individual school transportation plans are required for students with disabilities to ensure that accessible and appropriate transportation services are provided to them. To request specialized transportation, a Student Request for Accessible Transportation and Personalized Accessibility Plan form must be completed in consultation with the parents/caregivers of students with disabilities. Requests for students with disabilities must be approved by the Board's Learning Support Services Department. Medical requests should be directed to the school principal for approval by the school's Superintendent of Education. In addition, transportation operators must comply with all AODA requirements.

The OCDSB [Procedure PR.686.SCO, Use of Service Animals for Students](#) outlines the process for developing a transportation plan that includes the transportation of service animals.

To ensure the safety of special needs students, drivers shall deliver each student into the care of a responsible adult. Should any student require assistance getting on, or off the bus, such assistance must be provided by the parents/caregivers or school personnel. In the event that a responsible adult is not available, the driver shall report this to OSTA.

Older students in grades 9-12 are exempted from this requirement providing the parents/caregivers have given written permission to OSTA, and the school concurs the student does not require supervision when on their own.

For some students with special education needs it may be most appropriate for transportation to be provided separately from other students. School teams carefully consider these circumstances and document a request for solo transportation on the Student Request for Accessible Transportation and Personalized Accessibility Plan form. These requests require approval from the Superintendent of Education or the General Manager of Learning Support Services.

A Transition Plan ensures steps are being taken to help the student develop the necessary skills to return to group transportation, whether riding with other students in a van, or taking mass transportation on a yellow bus or public transit. Each student's ability to access transportation is reviewed annually.

Any equipment used to ensure the safety of the student while being transported must be properly fitted for the size, weight and/or age of the student. Parents/caregivers and school staff are responsible for ensuring the equipment is securely fastened. Equipment including car seats and boosters are used aligned to provincial legislation. Use of special equipment such as buckle guards, harnesses etc. must be approved by parents/caregivers.

Students in specialized program classes in schools outside their home communities, may be provided transportation without reference to distance units. Students residing within 800m from their designated school may be assessed for their ability to walk to school, with support, on an annual basis. The Board provides transportation for special needs students enrolled in the Summer Learning Program and Education and Community Partnership Program (ECPP). Students attending Provincial or Demonstration schools are transported by the Board. Provincial

and Demonstration schools are operated for students who are deaf, blind, or deaf-blind, or who have severe learning disabilities.

Drivers must complete a Vulnerable Sector Check and participate in sensitivity training provided by their employer when hired. The OCDSB actively supports and participates in any region-wide school vehicle safety committee or initiatives with a view to improving the uniformity of school bus safety procedures. Furthermore, the OCDSB supports efforts to equip school bus drivers with the skills to effectively manage student behavior.

Part 3 | The Board's Special Education Advisory Committee

Purpose of the Standard

To provide details of the operation of the board's SEAC to the Ministry and to give members of the public information to which they are entitled.

The Role and Responsibilities of SEAC

- to advise the Board with respect to the establishment, development, and delivery of programs and services to students receiving special education programs and services
- to participate in the Board's annual review process of the Special Education Plan
- to participate in the OCDSB annual budget process as it relates to special education by appointing a SEAC member to the Budget Committee
- to encourage the public to bring special education issues to the attention of SEAC by requesting to delegate at SEAC monthly meetings
- to pass motions which are presented as advice to the Board
- to appoint a non-voting representative to the Committee of the Whole to ensure that the interests of students with special education needs are considered in Board deliberations
- to review procedures and make recommendations
- to organize and prepare meeting agendas prior to monthly SEAC meetings with a focus on current issues and requests for information
- to respond to reviews of special education programs and services
- to guide parents/caregivers in policies and procedures relating to students with special needs and inform them of their rights and responsibilities, as requested
- to encourage the public to bring special education issues to the attention of SEAC by requesting to delegate at monthly meetings (where appropriate); and
- to create and maintain a guide of SEAC members and contact information

SEAC Meetings

- occur on the first Wednesday of each month (except July and August) at 7:00 p.m., via a hybrid model of in person and virtual platform
- all members of the public are welcome and encouraged to observe
- members of the public are encouraged to make their views known to SEAC by contacting representatives directly or by appearing as a delegation
- a delegation will be allocated time as follows:
    - up to four minutes where the request was made before the publication of the agenda on the Thursday before the meeting date
    - up to two minutes if the request was made after the publication of the agenda and prior to the start of the meeting

Composition of SEAC

Consists of a chair, vice-chair, three trustees, representatives of local associations, and three community members committed to furthering the interests of students with special education needs.

For more information on the role of SEAC and the nomination process, see *Special Education Advisory Committee Policy P. O19.GOV*. This can be located on our website at www.ocdsb.ca. A hard copy is available upon request. Please contact Board Services at (613) 596-8211, ext. 8641.

Support Services

Programs and Services

Purpose of the Standard

To provide the Ministry and the public with details of the board's strategies to ensure a smooth transition for students with special needs who are entering or leaving a school.

The OCDSB liaises and plans carefully for student transitions. When a student with special education needs enters a school or transfers to an OCDSB school from another board of education, the school principal will:
● facilitate the collection of pertinent documentation
● ensure the successful admission or transfer of students from one program to another, in accordance with appropriate and available resources
● work collaboratively with the parents/caregivers and, as appropriate, community partners on a transition plan based on the individual needs of the student

It is the practice of the OCDSB to accept assessments accompanying students from other jurisdictions and apply them to the OCDSB criteria when a student is being considered for a special education program or service. In order to use these documents and share them with the required individuals, a written consent is required from parents/caregivers. The assessments shared must be current and conducted by a qualified professional (according to the standards set by each profession). If additional assessments are needed to make an informed decision, in relation to the student's special education needs, they may be conducted by Board personnel. Advanced special education planning is done for students with special needs who are arriving from or leaving for other programs. Here are some links to the different transition resources that we have created to support students, families, and schools:

Entry to School Program and Transition to School

Special Needs Students in Transition - A Practical Guide for Schools and Parents

Transition from Elementary to Secondary

Integrated Transition Planning Resources

The current OCDSB student information database, Aspen, tracks all student information including special education programs and placements. The school location of OCDSB students in other facilities (i.e., Provincial and Demonstration schools) is also recorded in Aspen.

Programs and Services	Description
Preschool nursery program	- liaison is made with preschool, nursery, and clinical programs in order to facilitate the student's entry into the school environment - consultation with parents/caregivers is an integral part of the process - completion of the kindergarten intake procedures in consultation with parents/caregivers
Preschool programs for students who are Deaf	- liaison is made with preschool, nursery, and clinical programs, usually coordinated by Pinecrest-Queensway Community Health Centre in partnership with CHEO's audiology and the AVT program, in order to facilitate the student's entry into the school environment - consultation with parents/caregivers is an integral part of the process - completion of the kindergarten intake procedures in consultation with parents/caregivers - for primary students who communicate using American Sign Language (ASL), the school principal may submit an application for the Specialized Deaf/Hard of Hearing program class, if appropriate
Preschool speech and language program	**Preschool Speech/Language Initiative (First Words)** - coordinated by Pinecrest-Queensway Community Health Centre in partnership with CHEO (including Children Treatment Centre services) and funded by the Ontario Ministry of Children, Community and Social Services - a province-wide initiative designed to ensure that every preschool child has access to speech and language services focused on prevention, early identification, and intervention strategies to promote speech and language development in children until September when they are eligible for Year 1 - First Words and the OCDSB collaborated on a transition policy that results in a smooth and timely transfer, and informs parent(s)/ caregiver(s) of next steps in the transition from preschool speech and language services to school based speech and language services - First Words and the OCDSB meet formally 1-2 times per year as part of the First Words Community Partner Meeting and/or Transition to School sub-committee - the transition policy enables speech-language pathologists to discuss the continuing speech and language needs of students for educational planning - First Words supports preschool children from birth until school entry. Referrals will be accepted until April 1st of the year the child is entering Year 1. All children will be discharged by Year 1 school entry

Programs and Services	Description
Ministry of Children, Community and Social Services	**Education and Community Partnership Program (ECPP)** These programs provide evidence based treatment and education for students whose needs are such that they are unable to attend their community school. Programs available through Coordinated Referral to Education and Community Partnership classes in the 2024-25 school year were: ● Crossroads Children's Mental Health Centre ● Roberts/Smart Centre, Fisher Park and Albert Street ● The Royal Ottawa, Mental health Care Group A referral to these programs can be completed by the school based team based on discussions and collaboration with the parents/caregivers, and student, (12 years and up) and recommendation of the school based multidisciplinary team members. This referral is reviewed by an agency based committee, and an offer to a specific program may be provided. The committee is responsible to share the recommendation with the district contact who then shares the information with the respective school and parents/caregivers. While on the waitlist for an ECPP program, students may access a clinical multi-disciplinary team through the Children's Hospital of Eastern Ontario as determined by the case coordinator. When students are returning from any of these treatment programs, a discharge meeting is scheduled with the school team to provide an overview of all data/information gathered to best support a successful transition for the student back to their home school. For some of the programs, there are staff dedicated to support the transition. In 2022-23, the Lead Mental Health agency conducted an intensive service review of child and youth mental health services with a focus on day treatment. This review resulted in changes to the service delivery model for ECPP including a decrease in the number of placement spaces as well as a change to the service providers offering day treatment programs. The implementation for these changes began in the Fall 2023. The Ministry of Education has undergone a review of the ECPP programs provincially. The results will be made available in 2024-25 academic year.
