Strategic Plan 2019–2023

Creating a culture of Innovation, Caring and Social Responsibility...

means ensuring our schools are welcoming places for all students and staff to engage, belong, learn, grow, explore and discover. From Kindergarten to Grade 12, our focus is to support student learning and well-being so that all students can develop the characteristics and skills they need to find success in the world. Our Exit Outcomes describe what we want for all of our learners.

With this in mind, our new strategic plan seeks to develop these characteristics and skills.

CHARACTERISTICS

GOAL-ORIENTED

Students who are goal-oriented have self-motivation, diligence, initiative and a sense of responsibility.

RESILIENT

Students who are resilient face and overcome adversity and challenging situations. They take risks, learn from mistakes, persevere, and move forward confidently.

GLOBALLY AWARE

Students who are globally aware are empathetic and responsive in their contributions to the local and global community. They demonstrate cultural proficiency and act in a respectful, inclusive manner.

Educating for Success — Inspiring Learning, Developing Well-Being and Building Social Responsibility

Our goal was to create a simple, measurable and impactful plan that is meaningful to students, staff and community members. Recognizing that learning, well-being and equity are the core of our work, our strategic plan is focused on building a culture that supports and engages students, staff and community. This is achieved by ensuring our schools are safe, caring and respectful. We need to look forward and think about how our world is changing and ensure we are ready to respond to that change. With this in mind, we are excited that our new strategic plan has three key objectives — to create a Culture of Innovation, a Culture of Caring, and a Culture of Social Responsibility.

To drive this cultural shift, we have established three goals for each objective – one with a student focus, one with a staff focus and one with a system focus. These goals are supported by strategies that will guide our work; outcomes that describe the change we want to happen; and key performance indicators that will help us to measure our progress.

How are we going to move this work forward?

The Strategic Plan sets a course for the next four (4) years. Annually, the Board adopts a workplan which establishes key dates for monitoring fiduciary responsibilities and progress on strategic priorities. The Director generates annual strategic action plans which lay out the key work, deliverables, timelines and anticipated progress on the strategic objectives. Expectations for student achievement are established in the Board Improvement Plan and schools set their annual goals based on these expectations in the School Learning Plan. The Departmental work-plans are companion pieces to the Strategic Action Plan and are developed to reflect how departmental initiatives, programs and the operational activities will be directed by the Strategic Plan objectives.

How will we monitor progress?

As a system, we have to monitor progress in the classroom, at the school level, at the District level and in the Boardroom. This creates a cycle of accountability. Some sample questions to guide our monitoring include:

1. Is there evidence of these priorities in schools, classrooms, and workplaces?
2. Is decision-making guided by the strategic priorities?
3. Are we creating conditions to promote a change in culture?
4. Do we see a disproportionate representation of students in programs, classrooms, and success/recognition activities?
5. How does the data/evidence inform our work?

Key Performance Indicators (KPI's)

Key Performance Indicators are used to measure change. The following KPIs include a mix of current data sources as well as some new data sources. For example, measuring student, staff, and parent experiences will require the collection of perceptual data. This type of data is an essential element of any strategy which seeks to effect change in culture.

The District currently collects and reports on student achievement data. Our capacity to differentiate data by group will expand with the collection of identity-based data. This includes the ability to generate disproportionality indices as a measure of progress in removing barriers and improving equity of access, opportunity, and outcome.

The KPI's will be reported on annually in a series of reports — one report on each of the three strategic objectives and in the Annual Student Achievement Report. This data provides the strategic overview necessary to support the Board's accountability.

Culture of Innovation

We will build a learning community where innovation and inquiry drive learning.

- Graduation Rate
- Annual Certification Rate
- EQAO Results
