The District last wrote and approved Policy P.074.IT Computer Network Security in January 1999. The digital security landscape has evolved considerably during the last 20 years. While technology has to continually evolve to mitigate the technological threats, there is a greater need for awareness for staff and students to be cognizant of threats via social engineering, phishing attacks, email spoofing, etc. The revisions to the computer network security will assist in raising District awareness of security threats to the organization.
